## **Guide To Learn Telepathy:**

**Learn Telepathy in One Month** M. Muzamal Naveed, 2020-04-22 Telepathy or a way of transmitting thoughts to a distance is an area of metaphysics that is currently attracting the attention of a large number of people This issue is the subject of many books published in our country and in the West We will not dwell on their actual value we only note that the knowledge set forth in our book has no analogues since it is not based on random sources but draws its origins from the secret heritage of our ancestors and has come down to us being transmitted from then teacher to the student The fact that those who study Telepathy have at their disposal such an approach to thinking that is called divine and that it helped them to stay on the straight path is a blessing of our ancestors Information about the publication of this book has received the approval of the masses Thanks to the blessing of God the book became a subject of discussion in various circles of our society even before its publication

*Full Guide to Telepathy* M. Muzamal Naveed, 2019-10-19 The course aims to provide the reader with a practical guide training and education to develop skills to send and read thoughts from a distance As shown by the title it is a guide written in a more accessible which aims to provide overall guidance and direction to the correct target but only those who comply with all directions and instructions that you find here and they treated seriously but with full confidence The basis of this practical course is a series of documentaries and experiments including the following Almost all classical literature in this area Foundations scientific experiments recorded in the last half century including famous astronauts experience divers etc Own experience Some experts believe that during prehistoric man held a sixth sense that of telepathy He said in this connection that only education objectives and conditions for adaptation to survival of the human brain would have reduced the importance of relationships and like all human faculties were allowed to transcendence sense of telepathy mental communication has atrophied The existence of telepathy in our everyday life but we are always surprised by the evidence that we can meet often Most often these insights we received in the form of relatively more or less clear of some misfortune happened to those we hold dear long sad news before we can come to one of the other common ways of communication Although these messages subtle surprise us most times we do not examine them or afterwards unique moments of amazement that I lived As a result there is no way to realize full well that somehow there must be a law that governs these phenomena At the same time we cannot even grasp the advantage of such communications In conclusion there is no way to understand the content and the existence of forces that govern these processes nor know its power energy Despite these careless conscious or not the results obtained until now researchers show us that we can easily learn to practice this mode of communication and so we can take full advantage of all the benefits that it offers Telepathy could be defined as the ability to communicate between two people through mind people remote from one another so the lack of physical contact visual auditory or other known As an act of communication telepathy is performed between a transmitter and a receiver The ability to issue or receive messages is more or less developed in different people But it can be improved

with exercise To communicate telepathically is also necessary to know the person you wish to contact telepathically As we know it is much easier to learn what others already know but to get to this knowledge through personal experience It is very true that statement Well if this course we will approach this rule in two distinct ways which actually means just a way to reach the intended purpose you will learn first what we know you will experience for yourself that fill the gained knowledge with your own experience The exercises in this course have been designed in order to initiate the art of sending and receiving thoughts from a distance In short almost all lessons that are presented in this course are opted in initiating telepathic exercises

**Telepathy for Beginners** Harry Eilenstein, 2021-05-07 Telepathy is nothing exotic it is a part of everyday life haven t you often looked around involuntarily when someone was staring at you from behind If you want to do experiments to solidly prove the existence of telepathy and to find out how it works you will find it in this book There are a large number of phenomena that are based in whole or in part on telepathy Hypnosis dream journeys homeopathy oracles such as the Tarot cards and many more Telepathy is also closely related to other phenomena such as astral projection poltergeists foretelling the future and the like Often one cannot even clearly assign a phenomenon to one of these areas Is the crashing of PCs whose users are in stress now telepathy or telekinesis From the experiments and phenomena a simple model can be derived which resembles the collective subconsciousness of C G Jung Such a model can help to use telepathy more purposefully
