Patterson Giersch,2020-04-07 Tenacious patterns of ethnic and economic inequality persist in the rural largely minority regions of China s north and southwest Such inequality is commonly attributed to geography access to resources and recent political developments In *Corporate Conquests* C Patterson Giersch provides a desperately needed challenge to these conventional understandings by tracing the disempowerment of minority communities to the very beginnings of China s modern development Focusing on the emergence of private and state corporations in Yunnan Province during the late 1800s and early 1900s the book reveals how entrepreneurs centralized corporate power even as they expanded their businesses throughout the Southwest and into Tibet Southeast Asia and eastern China Bringing wealth and cosmopolitan lifestyles to their hometowns the merchant owners also

gained greater access to commodities at the expense of the Southwest's many indigenous minority communities. Meanwhile, new concepts of development shaped the creation of state-run corporations which further concentrated resources in the hands of outsiders. The book reveals how important new ideas and structures of power now central to the Communist Party's repertoire of rule and oppression were forged not along China's east coast but along the nation's internal borderlands. It is a must read for anyone wishing to learn about China's unique state capitalism and its contribution to inequality.

Intimacy as a Lens on Work and Migration Jingyu Mao, 2024-06-25. This book explores the experiences of ethnic performers in a small Chinese city aiming to better understand their work and migration journeys. Their unique position as service workers who have migrated within the same province provides valuable insights into the intersection of social inequalities related to the rural-urban divide, ethnicity, and gender in contemporary China. Introducing the concept of intimacy as a lens, the author examines intimate negotiations involving emotions, sense of self, and relationships as a way of understanding wider social inequalities. Drawing on ethnographic fieldwork, the book reveals the bordering mechanisms encountered by performers in their work as they navigate between rural and urban environments as well as between ethnic minority and Han identities. Emphasising the intimate and personal nature of these encounters, the book argues that they can help inform understanding of broader social issues.
