White Gloves, Black Nation Grace Sanders Johnson, 2023-03-17 This ambitious transnational history considers Haitian women s political life during and after the United States occupation of Haiti 1915-34 The two decades following the occupation were some of the most politically dynamic and promising times in Haiti s modern history but the history of women s political organizing in this period has received scant attention Tracing elite and middle class women s activism and intellectual practice from the countryside of Kenscoff Haiti to Philadelphia the Belgian Congo and back to Port au Prince this book tells the story of Haitian women s essential role as co curators of modern Haitian citizenship Set in a period when national belonging was articulated in philosophies of African authenticity revolutionary nostalgia and working class politics Grace Sanders Johnson considers how an emerging educated and professional class of women who understood themselves as descendants of the Haitian Revolution established alternative claims to citizenship that included but were not limited to suffrage and radicalism Sanders Johnson argues that these women s political practice incorporated strategic class performance extravagant sartorial sensibilities and an insistence on self promotion and preservation that challenged the exceptional trope of the martyred male revolutionary hero Bringing her subjects vividly to life she reveals their politics of wayfaring moving deliberately if sometimes ineffectively through the radical milieu of the twentieth century

material **Haitian History** Alyssa Goldstein Sepinwall, 2013 Despite Haiti's proximity to the United States and its considerable importance to our own history Haiti barely registered in the historic consciousness of most Americans until recently Those who struggled to understand Haiti's suffering in the earthquake of 2010 often spoke of it as the poorest country in the Western hemisphere but could not explain how it came to be so In recent years the amount of scholarship about the island has increased dramatically Whereas once this scholarship was focused on Haiti's political or military leaders now the historiography of Haiti features lively debates and different schools of thought Even as this body of knowledge has developed it has been hard for students to grasp its various strands Haitian History presents the best of the recent articles on Haitian history by both Haitian and foreign scholars moving from colonial Saint Domingue to the aftermath of the 2010 earthquake It will be the go to one volume introduction to the field of Haitian history helping to explain how the promise of the Haitian Revolution dissipated and presenting the major debates and questions in the field today **Edwidge Danticat**

Clitandre T. Nadège, 2018-11-14 Haitian American writer Edwidge Danticat is one of the most recognized writers today Her debut novel *Breath Eyes Memory* was an Oprah Book Club selection and works such as *Krik Krak* and *Brother I'm Dying* have earned her a MacArthur genius grant and National Book Award nominations Yet despite international acclaim and the relevance of her writings to postcolonial feminist Caribbean African diaspora Haitian literary and global studies Danticat's work has not been the subject of a full length interpretive literary analysis until now In Edwidge Danticat *The Haitian Diasporic Imaginary* Nadège T. Clitandre offers a comprehensive analysis of Danticat's exploration of the dialogic relationship between nation and diaspora Clitandre argues that Danticat moving between novels short stories and essays articulates a diasporic consciousness that acts as a form of social political and cultural transformation at the local and global level Using the echo trope to approach Danticat's narratives and subjects Clitandre effectively navigates between the reality of diaspora and imaginative opportunities that diasporas produce Ultimately Clitandre calls for a reconstitution of nation through a diasporic imaginary that informs the way people who have experienced displacement view the world and imagine a more diverse interconnected and just future Revolutionary Change and Democratic Religion Celucien L. Joseph, 2020-04-15 In *Revolutionary Change and Democratic Religion* Celucien Joseph provides a fresh and careful reexamination of Haiti's intellectual history by focusing on the ideas and writings of five prominent thinkers and public intellectuals Toussaint Louverture Joseph Antenor Firmin Jacques Roumain Dantes Bellegarde and Jean Price Mars The book articulates a twofold argument First of all Haiti has produced a strong intellectual tradition from the revolutionary era to the postcolonial present and that Haitian thought is not homogeneous and monolithic Joseph puts forth the idea that the general interweaving themes of rhetoric the race concept race vindication universal emancipation religious pluralism secular humanism the particular and the universal and cosmopolitanism are representative of Haiti's intellectual tradition Secondly the book also contends that Haitian intellectuals have produced a religious discourse in the twentieth century that could be phrased religious metissage

The religious ideas of these thinkers have been shaped by various forces ideologies religious traditions and philosophical schools In the same way the religious experience of the Haitian people should be understood in terms of conflicting heterodox and pluralistic manifestations of religious piety as the people in Haiti reacted to the crisis of slavery Western colonialism and imperialism and the arrogance of race in modernity in their striving to reposition themselves within the framework of universal and human metanarratives The book departs from the dominant contemporary Vodou scholarship that is often characteristic of North American and Western studies on the religious life of the Haitian people and Haitian thinkers

Thinking in Public Celucien L. Joseph, 2017-04-25 Thinking in Public provides a probing and provocative

meditation on the intellectual life and legacy of Jacques Roumain As a work of intellectual history the book investigates the intersections of religious ideas secular humanism and development within the framework of Roumain s public intellectualism and cultural criticism embodied in his prolific writings The book provides a reconceptualization of Roumain s intellectual itineraries against the backdrop of two public spheres a national public sphere Haiti and a transnational public sphere the global world Second it remaps and reframes Roumain s intellectual circuits and his critical engagements within a wide range of intellectual traditions cultural and political movements and philosophical and religious systems Third the book argues that Roumain s perspective on religion social development and his critiques of religion in general and of institutionalized Christianity in particular were substantially influenced by a Marxist philosophy of history and secular humanist approach to faith and human progress Finally the book advances the idea that Roumain s concept of development is linked to the theories of democratic socialism relational anthropology distributive justice and communitarianism Ultimately this work demonstrates that Roumain believed that only through effective human solidarity and collaboration can serious social transformation and real human emancipation take place

Production of Disaster and Recovery in Post-Earthquake Haiti Juliana Svistova, Loretta Pyles, 2018-02-21 Natural disasters have long been seen as naturally generated events but as scientific technological and social knowledge of disasters has become more sophisticated the part that people and systems play in disaster events has become more apparent Production of Disaster and Recovery in Post Earthquake Haiti demonstrates how social processes impact disasters as they unfold through the distribution of power and resources the use of discourses and images of disaster and the economic and social systems and relations which underlie affected communities The authors show how these processes played out in post earthquake Haiti to set in motion the mechanics of the disaster industrial complex to re produce disasters and recovery rather than bring sustainable change The book reveals that disaster and recovery rhetoric helped create fertile conditions for neoliberal disaster governance militarized and digital humanitarianism non profiteering and disaster opportunism to flourish while further disenfranchising marginalized populations However the Haiti earthquake as is the case with all disaster sites was ripe with mutual aid community building and collective action all of which further local resilience The authors seek to re construct dominant discourses policies and practices to advance equitable participatory partnerships with local community actors and propose a praxis for a people s recovery as an action oriented framework for resisting the transnational disaster industrial machinery The authors argue for new synergies in policymaking and program development that can respond to emergencies and plan for true long term sustainable development after disasters that focuses as much on humans and the natural world as it does on economic progress Production of Disaster and Recovery in Post Earthquake Haiti will be of great interest to students and scholars of disaster studies humanitarian studies development studies Haitian studies geography and environmental studies as well as to non governmental organizations humanitarians and policymakers
