Lessons in Disability Jacob

Stratman, 2015-11-16 Disability is a growing reality. According to the United States Census Bureau, approximately 57 million people, 19 percent of the population, had a disability in 2010, more than half being reported as severe. Interest in disability studies is also growing in literature, film, art, politics, and religion. Exploring the intersection between disability and young adult literature, this collection of new essays fills a gap in scholarship between teachers and YAL scholars. The contributors offer textual analysis, best practices, and numerous examples that enable teachers to expose students to dynamic characters who both reflect and contrast with the reader's reality.

Cyborg Saints Carissa Smith, 2019-09-02

Saints are currently undergoing a resurrection in middle grade and young adult fiction, as recent prominent novels by Socorro Aciole, Julie Berry, Adam Gidwitz, Rachel Hartman, Merrie Haskell, Gene Luen Yang, and others demonstrate. *Cyborg Saints: Religion and Posthumanism in Middle Grade and Young Adult Fiction* makes the radical claim that these holy medieval figures are actually the new cyborgs, in that they dethrone the autonomous subject of humanist modernity. While young people navigate political and personal forces as well as technologies that threaten to fragment and thingify them, saints show that agency is still possible outside of the humanist construct of subjectivity. The saints of these neomedievalist novels, through living a life vulnerable to the other, attain a distributed agency that accomplishes miracles through bodies and places and things, relics, icons, pilgrimage sites, and ultimately the hagiographic text, and its reader spread across time. *Cyborg Saints* analyzes MG and YA fiction through the triple lens of posthumanism, neomedievalism, and postsecularism. *Cyborg Saints* charts new ground in joining religion and posthumanism to represent the creativity and diversity of young people's fiction.

It elaborates on the links between international strategy and the social responsibilities of the firm in its various host market contexts, including the deployment of effective and ethical human resource practices in international markets. Most importantly, it lays out how the classic principles of international competitive strategy are transformed in today's markets in
