Handbook Of Federal Police And Investigative Agencies:

Handbook of Federal Police and Investigative Agencies Donald A. Torres, 1985-11-19 This in depth survey of the federal law enforcement system is divided into four sections The first gives an overview of the types of positions available with their requirements and benefits The entire second section is devoted to the Department of Justice the agency solely responsible for the prosecution of federal offenses The third section consists of 42 black and white illustrations of federal agency badges The agency profiles in the fourth section follow a standard format The profiles run the gamut of federal enforcement agencies from the large and well known such as the Drug Enforcement Administration and the Immigration and Naturalization Service to small and obscure agencies such as the Supreme Court Police The detailed information conveniently brought together in this handbook will make it a useful reference source not only for specialized law enforcement collections but wherever there is interest in public policy or a need for career information Booklist Here is an in depth study both of the larger more publicized federal enforcement agencies and of the smaller ones about which little is known Special attention is given to agency funding types of positions available personnel practices and to the clarification of criminal general investigator and uniformed police positions The Department of Justice and its specific agencies that perform law enforcement duties are examined in great detail Photographs of the badges issued by the various federal agencies are included Profiles of sixty one federal police and investigative agencies complete with organizational structure charts personnel strengths and agency responsibility are arranged alphabetically Detailed appendices include several examples of the training required for federal agents important personnel forms and the 1984 fiscal year salary schedule *Asset Recovery Handbook* Jean-Pierre Brun, Anastasia Sotiropoulou, Larissa Gray, Clive Scott, Kevin M. Stephenson, 2021-02-08 Developing countries lose billions each year through bribery misappropriation of funds and other corrupt practices Much of the proceeds of this corruption find safe haven in the world's financial centers These criminal flows are a drain on social services and economic development programs contributing to the impoverishment of the world's poorest countries Many developing countries have already sought to recover stolen assets A number of successful high profile cases with creative international cooperation has demonstrated that asset recovery is possible However it is highly complex involving coordination and collaboration with domestic agencies and ministries in multiple jurisdictions as well as the capacity to trace and secure assets and pursue various legal options whether criminal confiscation non conviction based confiscation civil actions or other alternatives This process can be overwhelming for even the most experienced practitioners It is exceptionally difficult for those working in the context of failed states widespread corruption or limited resources With this in mind the Stolen Asset Recovery StAR Initiative has developed and updated this Asset Recovery Handbook A Guide for Practitioners to assist those grappling with the strategic organizational investigative and legal challenges of recovering stolen assets A practitioner led project the Handbook provides common approaches to recovering stolen assets located in foreign jurisdictions identifies the challenges

that practitioners are likely to encounter and introduces good practices It includes examples of tools that can be used by practitioners such as sample intelligence reports applications for court orders and mutual legal assistance requests StAR the Stolen Asset Recovery Initiative is a partnership between the World Bank Group and the United Nations Office on Drugs and Crime that supports international efforts to end safe havens for corrupt funds StAR works with developing countries and financial centers to prevent the laundering of the proceeds of corruption and to facilitate more systematic and timely return of stolen assets
