Historical Narratives Third Grade:

The Journal of Childhood and Adolescence ,1902 *Texas School Journal* ,1905 **My Second-Favorite Country** Sivan Zakai,2022-06-14 Reveals how young American Jewish children come to develop their views about Israel Israel has long occupied a prominent place in the lives and imaginations of American Jews serving as both a symbolic touchstone and a source of intercommunal conflict In *My Second Favorite Country* Sivan Zakai offers the first longitudinal study of how American Jewish children come to think and feel about Israel tracking their evolving conceptions from kindergarten to fifth grade This work sheds light on the perception of Israel in the minds of Jewish children in the US and provides a rich case study of how children more generally develop ideas and beliefs about self community nation and world In contrast to popular views of America s youth as naive or uninterested this book illuminates both the complexity of their thinking and their desire to be included in conversations about important civic and political matters Zakai draws from compelling empirical data to prove that children spend considerable effort contemplating the very concepts that adults often assume they are not ready to discuss Indeed the book argues that over the course of their elementary school education children develop and express deep interest in complex issues such as the intricacies of identity and belonging conflicting ways of framing the past and the demands of civic responsibility Ultimately Zakai argues that in order to take children s ideas seriously and better prepare them for a world full of disagreement a substantive shift in educational practices is necessary **Child-sized History** Sara L. Barton,2011-01-26 Now in its fourth edition this popular text offers a unique perspective on teaching and learning history in the elementary and middle grades Through case studies of teachers and students in diverse classrooms and from diverse backgrounds it shows children engaging in authentic historical investigations often in the context of an integrated social studies curriculum The central assumption is that children can engage in valid forms of historical inquiry collecting and data analysis examining the perspectives of people in the past considering multiple interpretations and creating evidence based historical accounts In each chapter the authors explain how the teaching demonstrated in the vignettes reflects basic principles of contemporary learning theory thus providing specific examples of successful activities and placing them in a theoretical context that allows teachers to adapt and apply them in a wide variety of settings New in the Fourth Edition Expanded coverage of world history in two new chapters Integration of new technologies to support history instruction Updated classroom examples
