Hines, Nelleke IJssennagger, 2021 Multi disciplinary approaches shed fresh light on the Frisian people and their changing cultures Frisian is a name that came to be identified with one of the territorially expansive Germanic speaking peoples of the Early Middle Ages occupying coastal lands south and south east of the North Sea Highly varied manifestations of Frisian ness can be traced in and around the north western corner of the European continent in cultural linguistic ethnic and political

forms across two thousand years to the present day The thematic studies in this volume foreground how diverse Frisians in different places and contexts could be They draw on a range of multi disciplinary sources and methodologies to explore a comprehensive range of social economic and ideological aspects of early Frisian culture from the Dutch province of Zeeland in the south west to the North Frisian region in the north east Chronologically there is an emphasis on the crucial developments of the seventh and eighth centuries AD alongside demonstrations of how later evidence can retrospectively clarify long term processes of group formation The essays here thus add substantial new evidence to our understanding of a crucial stage in the evolution of an identity which had to develop and adapt to changing influences and pressures *The Promised Lands* Wim Blockmans,Walter Prevenier,2010-08-03 They were in the words of one contemporary observer the Promised Lands In all of Europe only Northern Italy could rival the economic power and cultural wealth of the Low Countries in the later Middle Ages In *The Promised Lands* Wim Blockmans and Walter Prevenier trace the relations between the cultural and economic developments of the Low Countries and the political evolution of the region under the rule of the dukes of Burgundy Combining political diplomatic administrative economic social artistic and cultural history Blockmans and Prevenier have synthesized the most recent research on the subject much of it their own to produce the most accessible and authoritative book in English on the subject This is an updated and revised translation of a classic work first published in 1988 now expanded and reoriented toward a broader international readership *The Low Countries History Yearbook 1978* I. Schoffer,2012-12-06 **Embracing the salt marsh** J.A.W. Nicolay,M. Schepers,2022-01-24 From a modern day perspective it may seem odd that people should have chosen to dwell in the open salt marsh landscape along the Wadden Sea coast While the beauty of the salt marshes is widely acknowledged the idea of living there seems to suggest struggle and misery Yet the salt marsh settlers dwelling on their settlement mounds or terps did not just survive or get by but actually managed to live a good life by embracing this marshy world and its peculiarities This collection of papers focuses on foraging farming and food preparation in the context of the salt marsh environment The various contributions celebrate the career and work of Annet Nieuwhof who has been an inspirational colleague and great friend to many of us She passionately embraced terp research always actively stimulating cooperation across disciplines as well as national borders Reflecting some of Annet s wide ranging interests the present volume is dedicated to her in friendship and gratitude *Dissident Identities in the Early Modern Low Countries* Alastair Duke,Andrew Spicer,2016-12-05 Alastair Duke has long been recognized as one of the leading scholars of the early modern Netherlands known internationally for his important work on the impact of religious change on political events which was the focus of his *Reformation and Revolt in the Low Countries* 1990 Bringing together an updated selection of his previously published essays together with one entirely new chapter and two that appear in English here for the first time this volume explores the emergence of new political and religious identities in the early modern Netherlands Firstly it analyses the emergence of a common identity amongst the amorphous collection of

states in north western Europe that were united first under the rule of the Valois Dukes of Burgundy and later the Habsburg princes and traces the fortunes of this notion during the political and religious conflicts that divided the Low Countries during the second half of the sixteenth century A second group of essays considers the emergence of dissidence and opposition to the regime and explores how this was expressed and disseminated through popular culture Finally the volume shows how in the age of confessionalisation and civil war challenging issues of identity presented themselves to both dissenting groups and individuals Taken together these essays demonstrate how these dissident identities shaped and contributed to the development of the Netherlands during the early modern period

The Evolution of the Money Standard in Medieval Frisia Dirk Jan Henstra,2000

Christ's Churches Purely Reformed Philip Benedict,2008-10-01 This sweeping and eminently readable book is the first synthetic history of Calvinism in almost fifty years It tells the story of the Reformed tradition from its birth in the cities of Switzerland to the unraveling of orthodoxy amid the new intellectual currents of the seventeenth century As befits a pan European movement Benedict s canvas stretches from the British Isles to Eastern Europe The course and causes of Calvinism s remarkable expansion the inner workings of the diverse national churches and the theological debates that shaped Reformed doctrine all receive ample attention The English Reformation is situated within the history of continental Protestantism in a way that reveals the international significance of English developments A fresh examination of Calvinist worship piety and discipline permits an up to date assessment of the classic theories linking Calvinism to capitalism and democracy Benedict not only paints a vivid picture of the greatest early spokesmen of the cause Huldrych Zwingli and John Calvin but also restores many lesser known figures to their rightful place Ambitious in conception attentive to detail this book offers a model of how to think about the history and significance of religious change across the long Reformation era

Wessel Gansfort (1419-1489) and Northern Humanism F. Akkerman,G.C. Huisman,Arjo J. Vanderjagt,1993-09-01 Wessel Gansfort 1419 1489 is the author of a number of astute but difficult texts which indicate the high level of late medieval spirituality and scholarship in northern Europe Together with his younger friend Agricola 1444 1485 he ushered in the beginning of modern intellectual life in the northern part of the Netherlands the province of Groningen and adjoining Germany This volume contains eight contributions on Gansfort enlarging the range of perceptions of his work and personality for the first time since the major studies of 1917 and 1933 by Maarten van Rhijn There are three additional articles on the Devotio Moderna and its influence and eight on various subjects and personalities touching early Humanism and the Reformation in this range Each of these studies is the result of entirely new and original research The volume is concluded by a large bibliography

The Excavations at Wijnaldum Annet Nieuwhof,2021-01-16 Wijnaldum is nowadays an unassuming rural village in the north of the province of Friesland no more than a small dot on the map of the Netherlands But during the Early Middle Ages this probably was a lively political center a kingdom with intensive contacts with other kingdoms along the North Sea coasts and with the Frankish realm to the south The search for the king that

resided at Wijnaldum was the major goal of the excavations that were carried out at the terp Wijnaldum Tjitsma between 1991 and 1993 These excavations yielded a wealth of information although tangible remains of the king or a royal residence were not found What was found was a lot of pottery The ceramic assemblage from the first Millennium consists of local handmade and imported wheel thrown pottery revealing contacts with the wider world The first results and an overview of the habitation phases were published in 1999 in Volume 1 of The Excavations at Wijnaldum The ceramic assemblage and its consequences for the habitation history of Wijnaldum are the main subjects of this second volume Routledge Revivals: Medieval Germany (2001) John M. Jeep, 2017-07-05 First published in 2001 Medieval Germany An Encyclopedia provides a comprehensive guide to the German and Dutch speaking world in the Middle Ages from approximately C E 500 to 1500 It offers detailed accounts of a wide variety of aspects of medieval Germany including language literature architecture politics warfare medicine philosophy and religion In addition this reference work includes bibliographies and citations to aid further study This A Z encyclopedia featuring over 500 entries written by expert contributors will be of key interest to students and scholars as well as general readers **Franciscan Learning, Preaching and Mission c. 1220-1650** Bert Roest, 2014-10-02 Returning to themes first discussed in his book A History of Franciscan Education Brill 2000 Bert Roest discusses in this volume a wide range of issues pertaining to the organization of learning in the Franciscan order in the late medieval and early modern period and the ways in which this order engaged in pastoral and missionary activities in confrontation with the rise of Protestantism The essays in this volume break new ground in their treatment of school formation the chronology of educational developments and the transformation of Franciscan schools between the mid fifteenth and the mid seventeenth century They also challenge ingrained scholarly verdicts on the efficacy of sixteenth century mendicant homiletics and on the role of the Franciscans in the Dutch mission from the early seventeenth century onwards *Advances in Old Frisian Philology* Rolf H. Bremmer, Stephen Laker, Oebele Vries, 2007 Like its two predecessors Aspects of Old Frisian Philology 1990 and Approaches to Old Frisian Philology 1998 Advances in Old Frisian Philology combines contributions by specialists of medieval Frisian studies with papers by international specialists from adjacent fields who have been invited for the occasion to bring their expertise to the discipline of Old Frisian Together the diverse approaches considerably advance our knowledge of and insight into various aspects of Old Frisian philology *The Cambridge Modern History*, 1918 **The Frisian Popular Militias between 1480 and 1560** Hans Mol, 2025-10-01 In the late Middle Ages and early modern times able bodied men between sixteen and sixty years of age were called upon all over Europe to participate in raids sieges and battles for the defense of home and hearth Because these men are regarded as amateurs military historiography has paid little attention to their efforts This book aims to change that by studying the mobilization organization and weaponry of popular levies for a time when war was frequently waged between states in the making Central to the book is the composition and development of the rural and urban militias in Friesland dissected in a

comparative Northwest European perspective along with an examination of why the self defense of the Frisians ultimately failed in their efforts to preserve their political autonomy The main source is an extensive series of muster lists from 1552 that have survived for six cities and fourteen rural districts

Piety in Practice and Print Koen Goudriaan, 2016 The late Middle Ages provide us with a fascinating religious landscape The quest for new religious ideals and intense spirituality can be observed in movements such as the Modern Devotion and the Franciscan Observance marking the late fourteenth and fifteenth century with new institutional dynamics and the formation of a variety of religious communities The dissemination of these new religious ideas and ideals profited from the advent of the printing press It is these subjects that Koen Goudriaan professor of Medieval History at VU University Amsterdam has studied for decades This volume edited by Anna Dlabová and Ad Tervoort presents a collection of eleven of his best essays It focuses on three themes the institutional parameters of late medieval religious movements the cult of remembrance and the interaction between religious movements and the early printing press Together these essays provide a representative sample of Goudriaan's substantial contribution to scholarship on late medieval history
