Subject: Baptists.      *History of the Baptists in Vermont, Vol. 2 (Classic Reprint)* Henry Crocker, 2015-07-21 Excerpt from *History of the Baptists in Vermont Vol 2*: Other men labored and ye are entered into their labors. The importance of preserving material for a history of Vermont Baptists was recognized by a few persons at an early date. In the minutes of The Shaftsbury Association of 1794 is this note: N. B. It is the request of some of the members of this Association that the several Associations with whom we correspond would print their annual minutes in sizable octavo. By this we judge a valuable end might be answered by being all of one size; they might easily be reduced to a volume without any expense being ranged in order from year to year and bound together they will naturally be preserved. The various circular letters they contain will be richly worthy of perusal and preservation; they will contain a body of divinity in a familiar style of letter writing. This method followed a few years will produce at once a more extensive history and accurate register of the Baptists in America than any other. It will at least contain particular and extensive information for rising generations without any expense but merely the care of preserving. To this end an octavo size will be best. Unfortunately, this suggestion as to uniformity of size was not heeded, but the prediction concerning the value of the minutes as sources of history was correct, and much credit is due those who preserved the minutes and to others who have collected the files now available for reference in our Historical Societies. For many years, however, a vast amount of history

was in the archives of the people's memory and much has been lost for lack of a timely historian In 1841 the State Convention took definite steps to secure a history of Vermont Baptists Brethren A Churchill D Haskell and M Field were appointed a committee for this purpose About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
