Myles, 2018-12-31 Class Struggle in the New Testament engages the political and economic realities of the first century to unmask the mediation of class through several New Testament texts and traditions Essays span a range of subfields presenting class struggle as the motor force of history by responding to recent debates historical data and new evidence on the political economic world of Jesus Paul and the Gospels Chapters address collective struggles in the Gospels the Roman military and class the usefulness of categories like peasant retainer and middling groups for understanding the world of Jesus the class basis behind the origin of archangels the Gospels as products of elite culture the implication of capitalist ideology upon biblical interpretation and the New Testament's use of slavery metaphors populist features and gifting practices This book will become a definitive reference point for future discussion **The Penguin Classics Book** Henry Eliot, 2019-02-21 Shortlisted for Waterstones Book of the Year The Penguin Classics Book is a reader's companion to the largest library of classic literature in the world Spanning 4 000 years from the legends of Ancient Mesopotamia to the poetry of the First World War with Greek tragedies Icelandic sagas Japanese epics and much more in between it encompasses 500 authors and 1 200 books bringing these to life with lively descriptions literary connections and beautiful cover designs

The Roman Army and the New Testament Christopher B. Zeichmann, 2018-10-31 Though New Testament scholars have written extensively on the Roman Empire the topic of the military has been conspicuously neglected leading many academics to defer to popular wisdom Against this trend *The Roman Army and the New Testament* provides a clear discussion of issues that are often taken for granted Who served in the military of early Roman Palestine Why did men join the Roman army seemingly at odds with their own interests as subject peoples What roles did soldiers serve beyond combat How did civilians interact with and perceive soldiers These questions

are answered through careful analysis of ancient literature inscriptions papyri and archaeological findings to paint a detailed portrait of soldier civilian interactions in early Roman Palestine Contrary to common assumption Judaea and Galilee were not crawling with Roman legionaries with a penchant for cruelty Rather a diverse mix of men from Palestine and nearby regions served as soldiers in a variety of social roles infrastructure construction dispute mediation bodyguarding officials like tax collectors etc Readers will discover a variety of complex attitudes civilians held toward men of Roman violence throughout the Roman East The importance of these historical issues for biblical scholarship is demonstrated through a verse by verse commentary on relevant passages that stretches across the entire New Testament from the Slaughter of the Innocents in Matthew's nativity to the climactic battle with the Great Beast in Revelation Biblical scholars seminarians and military enthusiasts will find much to learn about the Roman army in both the New Testament and early Roman Palestine

Jews and Christians in the Roman World Steve Mason, 2023-07-10 Roman Judaea Christian origins and Roman Judaeans Christian relations are flourishing fields of endless fascination Amid the flurry of new research however which uses ever new methods in the humanities and social sciences basic questions about what happened and how people then understood events are easily obscured This book argues that a simple but consistent historical method can throw new light and challenge entrenched views on such familiar topics as Roman provincial governance the Jewish War Flavian politics Judaea after King Herod Jewish and Christian historiography Pharisees and Essenes John the Baptist the apostle Paul and Luke Acts

Classics Transformed in Jewish, Israeli, and Palestinian Receptions, 2025-02-19 Classics Transformed in Jewish Israeli and Palestinian Receptions invites the reader to view classical antiquity through the writings of poets translators and scholars emerging from modern Jewish diasporas Mandatory Palestine and the State of Israel who engaged with Greek and Roman literary precedents Whereas these voices have up to now been mostly studied independently of one another as separate fields of research this volume brings some of these distinct voices who nevertheless share a connection to Greco Roman antiquity into conversation with one another Taking its cue from the crisis of humanism following the Holocaust the chapters take as their themes the destruction of home displacement and different forms of wandering and homecomings drawing connections to acts of translation and transmission of the classics to form a picture of cultural and textual states of alterity The volume shows that Jewish Israeli and Palestinian responses to the classics are entangled and even complementary despite their different trajectories The chapters included here focus particularly on critical moments in Jewish and Palestinian existence when the reception of classical humanism is closely linked to issues of survival On offer here is a historically grounded investigation into the ways Jews Israelis and Palestinians have used classical antiquity and classical philology to validate their identity in a rapidly changing society

Lazarus The editors selected some of the finest writings from the worlds of essay fiction poetry drama the Torah and nonfiction including several new translations from Hebrew Yiddish and German Each entry has its own introduction placing these authors and their works in socio historical perspective often revealing little known information about them *Islamic Jurisprudence on the Regulation of Armed Conflict* Nesrine Badawi,2019-10-01 In Islamic Jurisprudence on the Regulation of Armed Conflict Text and Context Nesrine Badawi argues against the existence of a true interpretation of the rules regulating armed conflict in Islamic law In a survey of formative and modern seminal legal works on the subject the author sheds light on the role played by the sociopolitical context in shaping this branch of jurisprudence and offers a detailed examination of the internal deductive structures of these works *Meditations from the Classics* David R. Denny,2023-12-08 There s a delightful melody in the ancient voices as they travel through time s narrow door I hear them best on my front porch rocker that faces an ocean marsh There beneath curious stars the orchestration emerges mingling with moonlight tides Sometimes Socrates sings the high notes while Thucydides pulls the bass line Aristophanes rallies his chorus and Caesar charges over a hilltop near the dark Teutoburg Forest There are times when I struggle with the faint lyrics but with patience the scenes begin to breathe again Hurry It s midnight and the curtain is opening The actors twirl their swords and fluff their flowing robes Sophocles is quieting the theater requesting our attention Oedipus now an aged actor leans upon his daughter Antigone His face glowers from twenty years of wandering beneath ghastly burdens and past failures Slowly they climb a rocky path that leads to the edge of a forest His words still resonate for us today with a vibrant relevance as do all thirty three ancient authors in *Meditations from the Classics* **Professional Journal of the United States Army** ,2009

Byzantium - Rus - Russia Simon Franklin,2024-10-28 The Christian culture of Rus the medieval precursor of modern Russia Ukraine and Belarus is sometimes presented either as a reflection of an indigenous spirituality wrapped in borrowed Byzantine forms or by contrast as merely a provincial version of its Byzantine original The essays in this volume start from the premise that neither view is adequate The history of culture even of a self consciously imitative culture involves a continual process of inevitable mistranslation as the imported models are reshaped and reinterpreted according to local resources circumstances and preconceptions These essays explore aspects of the translation of culture on several levels from the semantic processes of the actual translation of written texts from Greek into Slavonic through to larger issues of ideology and identity They consider both the initial stages of such translation from Byzantium to Rus and some of the subsequent retranslations of the Byzantine heritage in the culture of Rus and eventually of Russia **War Monuments, Museums and Library Collections of 20th Century Conflicts** Steve Rajtar,Frances Elizabeth Franks,2015-07-11 This unique state by state directory covers monuments memorials museums markers statues and library collections that relate to the veterans weapons vehicles airplanes victims or any other aspect of war in which the United States participated While a site may have been created before 1900 such as a fort there must be some operational or historical tie to a twentieth century conflict to be

included here General collections such as museums of aviation are included if they house materials related to a twentieth century conflict The coverage is so thorough that statues honoring veterans of the Civil War appear if veterans of later wars are on their rosters of honorees Another example of the comprehensiveness of this compilation is in the inclusion of memorials to victims of war such as the Holocaust Museum in Houston Texas For each site the following information is given street address phone number website and email address if applicable days and hours of operation admission fees other necessary information and a brief description of the site

Politics, Conflict, and Movements in First-Century

Palestine Richard A. Horsley, 2023-09-28 This volume brings together groundbreaking essays that laid the foundations of several of Horsley's later works The initial aims of these essays were first to ferret out evidence from our sources primarily from the histories of Josephus evidence for the lives of ordinary people living in Judean and Galilean villages A second purpose was to explore as precisely as possible the fundamental conflictual division between the Roman Herodian and high priestly rulers in Palestine and the Judean and Galilean villagers they ruled A third purpose was to explore more particularly how the popular and scribal opposition to the rulers was manifested in a remarkable diversity of movements and their leaders And the fourth purpose entailed in the first two was to wriggle out from under some of the controlling constructs of New Testament biblical studies that had been hiding the considerable complexity of the historical context This was necessary even to begin to discern more precisely the fundamental political economic religious conflict between the rulers and the villagers manifested in a diversity of social movements attested in the sources
