Excerpt from History of Missouri A Text Book of State History for Use in Elementary Schools Much has been said and written recently concerning the teaching of Citizenship History has long been recognized as a subject which has great value for this purpose The desire to make loyal citizens of our boys and girls gave History a place in our public schools soon after the Civil War For some reason the results obtained in the teaching of History have not been as satisfactory from the standpoint of good citizenship as is desirable The author believes that one of the chief reasons for the failure to realize these practical results is to be found in both the method and material used in our teaching of History Good citizenship consists largely in the ability of an individual to adjust himself to the community environment in which he lives Any community is what it is because of its past To understand a community it is necessary to know its History But our Historians usually begin with Columbus a native of a foreign country and of a different age and they seldom get closer to the environment of the child than Massachusetts The well established pedagogical principle of proceeding from the known to the unknown is ignored A noted educator has said We should begin with the boy where he is while he is there State History furnishes the material which connects the life of the child and the local community with events of historical importance in our national life About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
