Duffy, 2023-12-05 A harrowing account of an epic yet nearly forgotten battle of World War II General Douglas MacArthur s

four year assault on the Pacific War's most hostile battleground the mountainous jungle cloaked island of New Guinea A meaty engrossing narrative history This will likely stand as the definitive account of the New Guinea campaign The Christian Science Monitor One American soldier called it a green hell on earth Monsoon soaked wilderness debilitating heat impassable mountains torrential rivers and disease infested swamps New Guinea was a battleground far more deadly than the most fanatical of enemy troops Japanese forces numbering some 600 000 men began landing in January 1942 determined to seize the island as a cornerstone of the Empire's strategy to knock Australia out of the war Allied Commander in Chief General Douglas MacArthur committed 340 000 Americans as well as tens of thousands of Australian Dutch and New Guinea troops to retake New Guinea at all costs What followed was a four year campaign that involved some of the most horrific warfare in history At first emboldened by easy victories throughout the Pacific the Japanese soon encountered in New Guinea a roadblock akin to the Germans disastrous attempt to take Moscow a catastrophic setback to their war machine For the Americans victory in New Guinea was the first essential step in the long march towards the Japanese home islands and the ultimate destruction of Hirohito's empire Winning the war in New Guinea was of critical importance to MacArthur His avowed I shall return to the Philippines could only be accomplished after taking the island In this gripping narrative historian James P Duffy chronicles the most ruthless combat of the Pacific War a fight complicated by rampant tropical disease violent rainstorms and unforgiving terrain that punished both Axis and Allied forces alike Drawing on primary sources War at the End of the World fills in a crucial gap in the history of World War II while offering readers a narrative of the first rank

Em 13 de maio de 1945, vinte e quatro soldados americanos embarcaram em um avião cargueiro para um passeio sobrevoando Shangri-La, um lindo e misterioso vale no coração das selvas montanhosas da Nova Guiné Holandesa. Quando o avião caiu, milagrosamente, três passageiros conseguiram escapar: Margaret Hastings, John McCollom e Kenneth Decker. Sua única chance era enfrentar uma angustiante descida pela encosta da montanha em uma jornada que os levaria direto ao território de uma supersticiosa tribo a qual jamais tivera contato com a civilização. *Read On...History* Tina Frolund, 2013-10-21

War at the Margins Lin Poyer, 2022 *War at the Margins* offers a broad comparative view of the impact of World War II on Indigenous societies. Using historical and ethnographic sources, Lin Poyer examines how Indigenous communities emerged from the trauma of the wartime era with social forms and cultural ideas that laid the foundations for their twenty-first century emergence as players on the world's political stage. With a focus on Indigenous voices and agency, a global overview reveals the enormous range of wartime activities and impacts on these groups, connecting this work with comparative history, Indigenous studies, and anthropology. The distinctiveness of Indigenous peoples offers a valuable perspective on World War II as those on the margins of Allied and Axis empires and nation-states were drawn in as soldiers, scouts, guides, laborers, and victims. Questions of loyalty and citizenship shaped Indigenous combat roles from integration in national armies to service in separate ethnic units to unofficial use of their special skills, where local knowledge tilted the balance in military outcomes. Front lines crossed Indigenous territory most consequentially in northern Europe, Southeast Asia, and the Pacific Islands, but

the impacts of war go well beyond combat Like others around the world Indigenous civilian men and women suffered bombing and invasion displacement forced labor military occupation and economic and social disruption Infrastructure construction and demand for key resources affected even areas far from front lines World War II dissolved empires and laid the foundation for the postcolonial world Indigenous people in newly independent nations struggled for autonomy while other veterans returned to home fronts still steeped in racism National governments saw military service as evidence that Indigenous peoples wished to assimilate but wartime experiences confirmed many communities commitment to their home cultures and opened new avenues for activism By century s end Indigenous Rights became an international political force offering alternative visions of how the global order might make room for greater local self determination and cultural diversity In examining this transformative era War at the Margins adds an important contribution to both World War II history and to the development of global Indigenous identity
