A New World of Animals Miguel de Asúa, Roger French, 2017-03-02 Many Early Modern Europeans who during the sixteenth and seventeenth centuries travelled to the New World left written or pictorial records of their encounters with a surprising fauna The story told in this book is woven out of the threads of those texts and pictures A New World of Animals shows how the initial wonder at the new beasts gave way to a more utilitarian approach assessing their economic and medical potential It elucidates how shifts in European perceptions brought the animals from the realm of the fantastic into the mainstream of early modern natural history while at the same time changing the way in which Europeans saw their own world Indeed the chronicles and treatises of those who in the wake of the discovery arrived in the new lands tell as much about the particular interests and mental worlds of the writers as about the new animals This book traces the amazement of the first explorers and colonizers the chronicles of soldiers and Indians the natural histories of the New World the place of animals in the network of economic interests driving the early expansion of Europe the views of the missionaries and those of natural philosophers and physicians Taking the reader from the Brazilian forests to the erudite cabinets of the Old World from Patagonia to the centres of empire the story of the discovery of the unexpected menagerie of the New World is also an exploration of Early Modern European imagination and learning

Originally designed for students, this anthology is meant for everyone eager to know more about the history and literature of this period, interested in poetry, philosophy, and rhetoric of Ancient Rome. Latin literature is a natural successor of Ancient Greek literature. The beginning of Classic Roman literature dates to 240 BC. From that point on, Latin literature would flourish for the next six centuries. Latin was the language of the ancient Romans, but it was also the lingua franca of Western Europe throughout the Middle Ages. Consequently, Latin literature outlived the Roman Empire and included European writers who followed the fall of the Empire, from religious writers like Aquinas to secular writers like Francis Bacon, Baruch Spinoza, and Isaac Newton. This collection presents all the major Classic Roman authors, including Cicero, Virgil, Ovid, and Horace, whose work intrigues and fascinates readers until this day.
