Innovation Age Learning Sam Sakai-Miller, 2015-05-15 In Innovation Age Learning author Sharon Sam Sakai Miller shares her vision for active constructivist based learning infused with innovation skills which leads to proven student success. With this strategy students are challenged to cultivate empathetic thinking skills in order to become innovators who can turn knowledge into effective real world solutions. This book is filled with concrete strategies teachers can use today to teach innovation age skills as well as implement the Common Core standards. The ideas are organized by familiar essential skills: collaboration, communication, creativity, and critical thinking. Using these helpful takeaways, teachers can intentionally design learning environments that foster collaboration in class, beyond class, and beyond school; promote self-expression; interactive communication; and three-dimensional communication through words, data, and graphics. Creativity is encouraged by building creative confidence and associational thinking, and empathetic thinking skills are boosted by supporting the iterative learning process and building questioning and experimentation skills.

Individualized Learning with Technology Christine Bernat, 2019-11-01 Today we are moving into an information revolution that is every bit as life-altering as the previous industrial revolution. Students must now achieve at a higher level academically while also gaining important technology proficiencies required in work and life. However, by utilizing proven general and adult learning theories in association with educational technology, many of these new learning requirements can be met. This book can be a starting point for educators to begin considering how individualized learning could be done in high school to encourage life-long learning.

50 Ways to Use Technology Enhanced Learning in the Classroom Peter Atherton, 2018-01-15 This is a practical guide to the use of technology-enhanced learning (TEL) in the classroom. Introducing 50 ways to use technology for learning. Areas covered include Gamified learning, Social media, Video streaming, The flipped classroom, Instant feedback tools. And many more. Guidance on how to use these technologies for learning is complemented by an exploration of their impact on learning. For each example, the opportunities for evidencing progress are evaluated.
