Love, Freedom, and Aloneness Osho,2002-12-13 Why it is that people who are happy being alone have the best chance to have good relationships with others India My Love Osho,2002-01-23 India is not just a geography or history It is not only a nation a country a mere piece of land It is something more it is a metaphor poetry something invisible but very tangible It is vibrating with certain energy fields that no other country can claim For almost ten thousand years thousands of people have reached to the ultimate explosion of consciousness Their vibration is still alive their impact is in the very air you just need a certain perceptivity a certain capacity to receive the invisible that surrounds this strange land It is strange because it has renounced everything for a single search the search for the truth In these pages we are treated to a spellbinding vision of what Osho calls the real India the India that has given birth to enlightened mystics and master musicians to the inspired poetry of the Upanishads and the breathtaking architecture of the Taj Mahal We travel through the landscape of India's golden past with Alexander the Great and meet the strange people he met along the way We are given a front row seat in the proceedings of the legendary court of the Moghul Emperor Akbar and an insider's view of the assemblies of Gautama the Buddha and his disciples In the process we discover just what it is about India that has made it a magnet for seekers for centuries and the importance of India's unique contribution to our human search for truth

Guru English Srinivas Aravamudan, 2006 Guru English is a bold reconceptualization of the scope and meaning of cosmopolitanism examining the language of South Asian religiosity as it has flourished both inside and outside of its original context for the

past two hundred years The book surveys a specific set of religious vocabularies from South Asia that Aravamudan argues launches a different kind of cosmopolitanism into global use Using Guru English as a tagline for the globalizing idiom that has grown up around these religions Aravamudan traces the diffusion and transformation of South Asian religious discourses as they shuttled between East and West through English language use The book demonstrates that cosmopolitanism is not just a secular Western discourse that results from a disenchantment with religion but something that can also be refashioned from South Asian religion when these materials are put into dialogue with contemporary social movements and literary texts Aravamudan looks at religious forms of neoclassicism nationalism Romanticism postmodernism and nuclear millenarianism bringing together figures such as Swami Vivekananda Sri Aurobindo Mahatma Gandhi and Deepak Chopra with Rudyard Kipling James Joyce Robert Oppenheimer and Salman Rushdie Guru English analyzes writers and gurus literary texts and religious movements and the political uses of religion alongside the literary expressions of religious teachers showing the cosmopolitan interconnections between the Indian subcontinent the British Empire and the American New Age
