**Imperative** Scott D. Liebhauser, 2018-01-22 The topic of leadership is ubiquitous in today's era of experts, scholars and gurus. With a host of voices promoting a myriad of views on this topic, it is hard for one to determine who or what is correct. This book gets to the heart of the issue by providing an unashamed and historic basis for leading others using biblical truth as the standard. The postmodern epoch is fraught with confusion, relativity and chaos as basic terms are redefined, historic truths are maligned and cultural mores are upended. Consequently, leaders in this time are often just as confused as their followers who are leaving a trail of destruction in their wake. Fortunately, there are answers for those seeking to lead with confidence based on something much grander than personal opinion or subjective reasoning. In this work, Dr. Liebhauser explains the pitfalls leaders face in these fluid times of resistance to anything authoritative while providing sound principles by which to effectively lead. The reader will appreciate learning about the historical dynamic which fueled postmodern thinking and find hope in the time-tested remedies this book provides.      **Holistic Health Healing and Astrosciences** B. Books in Print Supplement, 1978      *Re-Visioning Person-Centred Therapy* Manu Bazzano, 2018-06-27 By exploring various ways to assimilate recent progressive developments and to renew its vital links with its radical roots, *Re-Visioning Person-Centred Therapy: Theory and Practice of a Radical Paradigm* takes a fresh look at this revolutionary therapeutic approach. Bringing together leading figures in PCT and new writers from around the world, the essays in this book create fertile links with phenomenology, meditation and spirituality, critical theory, contemporary thought and culture, and philosophy of science. In doing so, they create an outline that renews and re-visions person-centred therapy's radical paradigm, providing fertile material in both theory and practice. Shot through with clinical studies, vignettes and in-depth discussions on aspects of theory, *Re-Visioning Person-Centred Therapy* will be stimulating reading for therapists in training and practice as well as those interested in the development of PCT.      **Engineering Perfection** Elyse Purcell, 2021-10-19 What do we owe our

future children? How do advances in biomedical science bear on these obligations? How do capitalist incentives distort their execution? Advances in biotechnologies for human enhancement and designer babies appear to offer us new hope to control the fragility of human living. Some philosophers have argued that we have a moral imperative to use them, especially to eliminate disabilities. Elyse Purcell offers an opposing view, one guided by existential insights and Marxist reflections. *Engineering Perfection: Solidarity, Disability and Well-being* explores the effect global capitalism may have on the selection of traits for our future children and how the commercialization of these technologies may lead to the elimination of bodily diversity. Although philosophers have addressed the possible widening between the haves and have-nots, this book considers the role oppression and exploitation may play in enhancing bodies for profit. As a challenge to the global economy of debility, Purcell proposes the Solidarity view which embraces human vulnerability and embodied difference. By reflecting on facets of the human condition, the Solidarity view challenges us to reject our conception of the good life as human perfection and

instead reconceive of the good as one's self realization through the interdependent mutual recognition and co belonging with others **New Technologies and Human Rights** Norberto Nuno Gomes de Andrade, Lúcio Tomé Fêiteira, 2016-05-13

Whilst advances in biotechnology and information technology have undoubtedly resulted in better quality of life for mankind they can also bring about global problems The legal response to the challenges caused by the rapid progress of technological change has been slow and the question of how international human rights should be protected and promoted with respect to science and technology remains unexplored The contributors to this book explore the political discourse and power relations of technological growth and human rights issues between the Global South and the Global North and uncover the different perspectives of both regions They investigate the conflict between technology and human rights and the perpetuation of inequality and subjection of the South to the North With emerging economies such as Brazil playing a major role in trade investment and financial law the book examines how human rights are affected in Southern countries and identifies significant challenges to reform in the areas of international law and policy **The Figure of Music in Nineteenth-Century**

**British Poetry** Phyllis Weliver, 2017-07-05 How was music depicted in and mediated through Romantic and Victorian poetry This is the central question that this specially commissioned volume of essays sets out to explore in order to understand better music's place and its significance in nineteenth century British culture Analysing how music took part in and commented on a wide range of scientific literary and cultural discourses the book expands our knowledge of how music was central to the nineteenth century imagination Like its companion volume *The Idea of Music in Victorian Fiction* Ashgate 2004 edited by Sophie Fuller and Nicky Losseff this book provides a meeting place for literary studies and musicology with contributions by scholars situated in each field Areas investigated in these essays include the Romantic interest in national musical traditions the figure of the Eolian harp in the poetry of Coleridge and Shelley the recurring theme of music in Blake's verse settings of Tennyson by Parry and Elgar that demonstrate how literary representations of musical ideas are refigured in music George Eliot's use of music in her poetry to explore literary and philosophical themes music in the verse of Christina and Dante Gabriel Rossetti the personification of lyric Sappho in a song cycle by Granville and Helen Bantock and music and sexual identity in the poetry of Wilde Symonds Michael Field Beardsley Gray and Davidson **Speaking into the Air** John

Durham Peters, 2012-04-26 Communication plays a vital and unique role in society often blamed for problems when it breaks down and at the same time heralded as a panacea for human relations A sweeping history of communication *Speaking Into the Air* illuminates our expectations of communication as both historically specific and a fundamental knot in Western thought This is a most interesting and thought provoking book Peters maintains that communication is ultimately unthinkable apart from the task of establishing a kingdom in which people can live together peacefully Given our condition as mortals communication remains not primarily a problem of technology but of power ethics and art Antony Anderson *New Scientist* Guaranteed to alter your thinking about communication Original erudite and beautifully written this book is a gem Kirkus
