Gloed Uit As Geschiedenis Van Een Wedergeboorte Hiroshima:

Lektuurgids , Kultuurleven ,1961 Lectuur-repertorium ,1969 Hiroshima John Hersey,2023-03-23 Das Entsetzen der Welt öffentlichkeit war groß als am 31 August 1946 in der Zeitschrift The New Yorker eine Reportage erschien deren Titel Hiroshima an das lang ersehnte Ende des Krieges erinnerte aber zugleich die Schrecken einer neuen Zeit heraufbeschwor Ihr Autor John Hersey war kein Unbekannter Er hatte 1945 für seinen ersten Roman den Pulitzer Preis gewonnen nachdem er seine schriftstellerische Laufbahn als Sekretär und Chauffeur von Sinclair Lewis und als Kriegsreporter begonnen hatte Im Mai 1946 reiste er nach Japan um über die Folgen des Atombombenabwurfs zu recherchieren Bei seinen Nachforschungen stieß er auf erheblichen Widerstand von Seiten der amerikanischen Behörden Trotzdem gelang es ihm sechs überlebende des 6 August 1945 zu befragen Was er von ihrem Schicksal erzählte und wie er es tat war in seiner ganzen Nüchternheit so erschütternd und beherrend dass der Text nicht wie geplant in Fortsetzungen sondern in seiner vollen Länge von rund 31 000 Wörtern in einer einzigen Ausgabe erschien Es heißt Albert Einstein habe davon 1000 Exemplare bestellen wollen sie war allerdings nach wenigen Stunden ausverkauft Der Text der seither in zahlreichen Buchausgaben erschienen ist gilt bis heute als eine der wichtigsten journalistischen Arbeiten des 20 Jahrhunderts

Hiroshima John Hersey,1989-03-01 The classic tale of the day the first atom bomb was dropped offers a haunting evocation of the memories of survivors and an appeal to the conscience of humanity Hiroshima John Hersey,2006-11-01 HIROSHIMA By JOHN HERSEY PUBLISHERS NOTE ON Monday August 6th 1945 a new era in human history opened After years of intensive research and experiment conducted in their later stages mainly in America by scientists of many nationalities Japanese among them the forces which hold together the constituent particles of the atom had at last been harnessed to mans use and on that day man used them By a decision of the American military authorities made in defiance of the protests of many of the scientists who had worked on the project an atomic bomb was dropped on Hiroshima As a direct result some 600 000 Japanese men women and children were killed and 100 000 injured and almost the whole of a great seaport a city of 250 000 people was destroyed by blast or by fire As an indirect result a few days later Japan acknowledged defeat and the Second World War came to an end For many months little exact and reliable news about the details of the destruction wrought by the first atomic bomb reached Western readers Millions of words were written in Europe and America explaining the marvellous new powers that science had placed in mans hands describing the researches and experiments that had led up to this greatest of all disclosures of Natures secrets discussing the problems for mans future which the new weapon raised Argument waxed furious as to the ethics of the bomb should the Japanese have received advance warning of Americas intention to use It should a demonstration bomb have been exploded in the presence of enemy observers in some remote spot where it would do a minimum of damage as a warning to the Japanese people before its first serious use But of the feelings and reactions of the people of Hiroshima to the bomb nothing or at least nothing that

was not pure imagination could be written for nothing was known In May 1946 The New Yorker sent John Hersey journalist and author of A Bell for Adano to the Far East to find out what had really happened at Hiroshima to interview survivors of the catastrophe to endeavour to describe what they had seen and felt and thought what the destruction of their city their lives and homes and hopes and friends had meant to them in short the cost of the bomb in terms of human suffering and reaction to suffering He stayed in Japan for a month gathering his own material with little if any help from the occupying authorities he obtained the stories from actual witnesses The characters in his account are living individuals not composite types The story is their own story told as far as possible in their own words On August 31st 1946 Herseys story was made public For the first time in The New Yorkers career an issue appeared which within the familiar covers bearing for such covers are prepared long in advance picnic scene carried no satire no cartoons no fiction no verse or smart quips or shopping notes nothing but its advertisement matter and Herseys 30 000 word story

Hiroshima Hersey John, 2014-07-01 Julia Alvarez grew up in the Dominican Republic before emigrating to the United States at the age of 10 She now lives in Vermont where she is a writer in residence at Middlebury College From the Hardcover edition

Reimagining Hiroshima and Nagasaki N.A.J. Taylor, Robert Jacobs, 2017-09-14 This edited volume reconsiders the importance of the attacks on Hiroshima and Nagasaki from a post Cold War perspective It has been argued that during the Cold War era scholarship was limited by the anxiety that authors felt about the possibility of a global thermonuclear war and the role their scholarship could play in obstructing such an event The new scholarship of Nuclear Humanities approaches this history and its fallout with both more nuanced and integrative inquiries paving the way towards a deeper integration of these seminal events beyond issues of policy and ethics This volume therefore offers a distinctly post Cold War perspective on the nuclear attacks on Hiroshima and Nagasaki The chapters collected here address the memorialization and commemoration of Hiroshima and Nagasaki by officials and states but also ordinary people s resentment suffering or forgiveness The volume presents a variety of approaches with contributions from academics and contributions from authors who are strongly connected to the cities of Hiroshima and Nagasaki and its people In addition the work branches out beyond the traditional subjects of social sciences and humanities to include contributions on art photography and design This variety of approaches and perspectives provides moral and political insights on the full range of vulnerabilities such as emotional bodily cognitive and ecological that pertains to nuclear harm This book will be of much interest to students of critical war studies nuclear weapons World War II history Asian History and International Relations in general

Hiroshima: The Aftermath Hersey, John, 1986

The Legacy of Hiroshima [?], 1986 With the threat of nuclear annihilation looming over the human race The Legacy of Hiroshima offers a message we cannot ignore The horrible effects of the bombing are explored from a dual perspective their human toll and the physical facts that unveil the true impact of nuclear weapons and the hopelessness of survival in a nuclear catastrophe

The Doctor of Hiroshima Michihiko Hachiya, 2024 With what this poor woman had been through the sight of her crying

tore at my heartstrings What if something should happen to her who would care for her little baby To conceal the fear and terror in my heart I left her trying to put up a cheerful front But no one could conceal from her the ominous import of the dark spots that had appeared on her chest The Doctor of Hiroshima is the extraordinary true story of Dr Michihiko Hachiya whose hospital was less than a mile from the centre of the atomic bomb that hit on that warm August day In immense shock and pain he and his wife Yaeko dragged themselves to the devastated hospital building and what colleagues they could find In time they begin to heal and start to treat the impossible numbers of patients a small girl covered in burns an elderly man with pneumonia a young boy and his little sister looking for their parents They also began to investigate the strange unexplainable symptoms afflicting his patients things he never dreamed he would see Told simply and poignantly in Dr Hachiya's own words The Doctor of Hiroshima is a unique and deeply moving human story of survival about a small committed band of hospital staff in the face of unthinkable destruction and loss **Hiroshima Diary** Michihiko Hachiya, 2005-09 *Masako's Story* Kikuko Otake, 2011 Masako's Story Surviving the Atomic Bombing of Hiroshima The cenotaph for the Hiroshima victims says Let all the souls here rest in peace for we shall not repeat the evil This little memoir in verse has a beautiful sweetness reverence and sorrow that gives its readers freedom to imagine the enormity the horror of Hiroshima Los Angeles Times Vivid and moving The Mainichi Daily News Anyone who fails to learn from history is doomed to repeat it here is a book to remember it by The Japan Times Compelling Steven L.
