Incomprehensible Certainty Thomas Pfau, 2022-06-01 Thomas Pfau's study of images and visual experience is a tour de force linking Platonic metaphysics to modern phenomenology and probing literary philosophical and theological accounts of visual experience from Plato to Rilke *Incomprehensible Certainty* presents a sustained reflection on the nature of images and the phenomenology of visual experience Taking the image *eikōn* as the essential medium of art and literature and as foundational for the intuitive ways in which we make contact with our lifeworld Thomas Pfau draws in equal measure on Platonic metaphysics and modern phenomenology to advance a series of interlocking claims First Pfau shows that beginning with Plato's later dialogues being and appearance came to be understood as ontologically distinct from but no longer opposed to one another Second in contrast to the idol that is typically gazed at and visually consumed as an object of desire this study positions the image as a medium whose intrinsic abundance and excess reveal to us its metaphysical function namely as the visible analogue of an invisible numinous reality Finally the interpretations unfolded in this book from Plato Plotinus Pseudo Dionysius John Damascene via Bernard of Clairvaux Bonaventure Julian of Norwich and Nicholas of Cusa to modern writers and artists such as Goethe Ruskin Turner Hopkins Cézanne and Rilke affirm the essential complementarity of image and word visual intuition and hermeneutic practice in theology philosophy and literature Like Pfau's previous book *Minding the Modern* *Incomprehensible Certainty* is a major work With over fifty illustrations the book will interest students and scholars of philosophy theology literature and art history

Cyprus under British Colonial Rule Christos P. Ioannides, 2018-12-06 This is a unique book that combines a political narrative with poetry to examine the role of culture and the fusion of religion and politics during the struggle against colonialism The context is Britain's geopolitical interests in the Middle East The author utilizes a vital cultural source echoing the authentic voice of the people Cypriot folk poems which has remained virtually unknown to the English reader until now Translated into English they are interwoven into the book's narrative to reflect the yearning for social justice and the political sentiments of

the vast majority of the population the peasants in a rural society Lawrence Durrell's literary masterpiece *Bitter Lemons* his politico cultural chronicle on British ruled Cyprus is also discussed critically The Greek Orthodox Church led the anti colonial movement revolving around union with Greece Through his intimate knowledge of Greek Orthodox practices the author elucidates how religious customs and rituals were intertwined with the nationalist ideology to lead to political mobilization In the process culture with its religious underpinnings shaped politics This dynamic has been the case from the Middle East Turkey and North Africa to Eurasia and South East Asia Prime examples are the Iranian revolution and the more recent Arab Spring both of which caught the West by surprise In Cyprus the British with their sense of superiority remained alien to the local culture and discounted popular sentiment The two rebellions that ensued caught Britain totally by surprise This is a valuable case study on the convergence of religion and politics Academics students and non specialists will find a captivating narrative on Britain's colonial encounter in an idyllic but strategic island in the Eastern Mediterranean **The Sign of the**

Cross Daniel Rancour-Laferriere, 2017-09-08 This book presents a unique effort to create a new understanding of the Christian sign of the cross At its core it traces the conscious and unconscious influence of this visual symbol through time What began as the crucifixion of a Jewish troublemaker in Roman occupied Judea in the first century eventually gave rise to a broad spectrum of readings of the instrument used to accomplish such a punishment a cross The author argues that Jesus was a provocative grandiose masochist whose suffering and death initially signified redemption for believers This idea gradually morphed into a Christian sense of freedom to persecute and wage war against non believers however as can be seen in the Crusades wars of the cross Many believers even construed the murder of their savior as a crime perpetrated by the Jews and this paranoid notion culminated in the mass murder of European Jews under the sign of the Nazi hooked cross Hakenkreuz Rancour Laferriere's book is expertly written and argued it will be readable to a large audience because it touches on many areas of controversy interest and scholarship The work is critical but not unfair it employs psychoanalysis art history the study of the symbol of the cross in works of art religion and religious texts and world history generally The interweaving of these various themes is what gives this work its ability to draw in readers and will ultimately be what keeps the reader interested through the conclusion *Annual Report - National Endowment for the Humanities* National

Endowment for the Humanities, 1996 **National Endowment for the Humanities ... Annual Report** National Endowment for the Humanities, 1995 *Byzantine Art* Robin Cormack, 2018-02-27 The opulence of Byzantine art with its

extravagant use of gold and silver is well known Highly skilled artists created powerful representations reflecting and promoting this society and its values in icons illuminated manuscripts and mosaics and wallpaintings placed in domed churches and public buildings This complete introduction to the whole period and range of Byzantine art combines immense breadth with interesting historical detail Robin Cormack overturns the myth that Byzantine art remained constant from the inauguration of Constantinople its artistic centre in the year 330 until the fall of the city to the Ottomans in 1453 He shows

how the many political and religious upheavals of this period produced a wide range of styles and developments in art This updated colour edition includes new discoveries a revised bibliography and in a new epilogue a rethinking of Byzantine Art for the present day

Wisdom's House, Heaven's Gate Teresa Shawcross, 2024-09-14 Taking as its starting point an investigation into the physical topography and symbolism of the two cities of Athens and Jerusalem this book offers a cultural history of the rival superpowers the Byzantine Empire and Fatimid Caliphate that between them dominated the Mediterranean world during the Central Middle Ages It shows that the destruction of the Church of the Holy Sepulchre in Jerusalem on the orders of al Hakim punctuated a century of heightened interaction resulting from changing patterns of warfare trade and pilgrimage Resettlement of both Christians and Muslims from Syria Palestine in Asia Minor and the Balkans introduced these migrants host culture to new forms of religious and artistic expression In Hellas a flurry of building projects reinvented Athens as a New Jerusalem and the Parthenon as a New Temple The Acropolis became famous for its miraculous lamp and elaborate liturgy The clergy who performed the sacred mysteries justified them with reference to concepts of hierarchy illumination and divinisation These concepts were derived from a philosophical tradition over whose ownership the two superpowers competed The resulting political theology was the creation of male intellectuals but female patrons and worshippers also had an impact

Marx, Critical Theory, and Religion, 2006-08-01 The Sociology of Religion has had several frameworks guiding its analysis including functionalism interpretive sociology phenomenology symbolic interactionism and now rational choice theory Marxism has tended to ignore religion assuming it is something that would eventually disappear even though it retained theological elements This collection of

essays brings together a group of scholars who use frameworks provided by Marx and Critical Theory in analyzing religion. Its goal is to establish a critical theory of religion within the sociology of religion as an alternative to rational choice. In doing so, it engages in a critique of the positivism, uncritical praise of the market, neoconservatism, and one-dimensional conception of rationality of the rational choice theory of religion.

Jerusalem, 1000-1400 Barbara Drake Boehm, Melanie Holcomb, 2016-09-14. Medieval Jerusalem was a vibrant international center home to multiple cultures, faiths, and languages. Harmonious and dissonant voices from many lands, including Persians, Turks, Greeks, Syrians, Armenians, Georgians, Copts, Ethiopians, Indians, and Europeans, passed in the narrow streets of a city not much larger than midtown Manhattan. Patrons, artists, pilgrims, poets, and scholars from Christian, Jewish, and Islamic traditions focused their attention on the Holy City, endowing and enriching its sacred buildings, creating luxury goods for its residents, and praising its merits. This artistic fertility was particularly in evidence between the eleventh and fourteenth centuries, notwithstanding often devastating circumstances from the earthquake of 1033 to the fierce battles of the Crusades. So strong a magnet was Jerusalem that it drew out the creative imagination of even those separated from it by great distance, from as far north as Scandinavia to as far east as present-day China. This publication is the first to define these four centuries as a singularly creative moment in a singularly complex city. Through absorbing essays and incisive discussions of nearly 200 works of art, *Jerusalem 1000-1400* Every People Under Heaven explores not only the meaning of the city to its many faiths and its importance as a destination for tourists and pilgrims, but also the aesthetic strands that enhanced and enlivened the medieval city that served as the crossroads of the known world.

[The Medieval Mediterranean City](#) Felicity Ratté, 2021-08-18. This book is a study of architecture and urban design across the Mediterranean Sea from the 12th to the 14th Century, a time when there was no single hegemonic power dominating the area. The focus of the study, four cities on the Italian peninsula and four in Syria and Egypt, is the interconnectedness of the design and use of urban structures, streets, and open space. Each chapter offers an historical analysis of the buildings and spaces used for trade, education, political display, and public action. The work includes historical and social analyses of the mercantile, social, political, and educational cultures of the eight cities, highlighting similarities and differences between Christian and Islamic practices. Sixteen new maps, drawn specifically for this book, are based on the writings of medieval travelers.

The Winchester Manuscript Claudia Campaña, 2024-08-27. This book offers a vivid account of English academic life. The author describes her first weeks in England as a postgraduate student at the Courtauld Institute of Art, University of London, and recounts in detail her encounter and challenges with the Winchester Psalter, British Library MS Cotton Nero C IV, a profusely illustrated manuscript that ranks among the undisputed treasures of English Romanesque art. Following this biographical account, an essay provides readers with an insight into the processes involved in the production of medieval miniatures and their creative fantasy. The prologue to this paper is written by Dr. John Lowden, a leading researcher and historian of medieval art.
