Forward Do you own a whole row of cookbook and yet you do not know what to cook I found myself in this situation a few years ago I was seriously ill and on a very restrictive diet I was allergic to most foods and all chemicals I went through an impressive row of my cookbooks but found only a few recipes in each cookbook that I could use Why store something I did not need I took my scissors and went to work I cut out few recipes from each book which could modified for for my diet Except for my cookbook Roister Blanka's Bohemian Recipe Collection which I made earlier the rest were discarded For wheat I substituted healthy kamut barely amaranth quinoa millet buckwheat and rice I have replaced cow's milk products with goat's milk products No mad goat's disease yet For sweeteners I used maple syrup and honey For meats I used fish and lamb I found substitutes for eggs and baking powder My second cookbook for the sick times was born Why was I together with an increasing amount of people so allergic I thought for the first time in my life about the tons of chemicals which are being dumped into the air water and food I thought about pesticides cleaning supplies detergent and personal care items I was using They were full of toxic chemicals I identified the last straw that broke the camels back It was a tiny leak of gas in our house and mold I subscribed to Our Toxic Times I immersed myself in deep studies on the subject Instead of products with chemicals I started to use natural products I started to flee from any chemical scents It took no longer to identify the other reasons for my allergies More and more of our food is being genetically engineered It contains anything from fish genes to human genes The genetic engineers are playing a dangerous game with God's perfect creation Should we say with the perfect creation of one unique couple Brainless Mother Nature and Blind Force Father Evolution For example It is

common knowledge that the genetically modified Monsanto white skin potato is legally registered as a pesticide It does kill potato bugs People are eating pesticides without their knowledge No wonder people get sicker and sicker Unfortunately they are unaware of these facts As if it would not be enough the Monsanto scientists engineered this potato with a gene called The Terminator This means that the potatoes would not sprout the next season and farmers would buy potatoes for planting from Monsanto again This way starting with potatoes Monsanto could have complete control over our foods supplies What will happen when the Terminator spreads by pollination to other plants and to wild plants Monsanto did not stop here The article Monsanto s Genetically Modified Milk Ruled Unsafe by United Nations explains why the European market will not except milk from the USA They do not want anything to do with Monsanto s Round up Ready Beans either The FDA ruled that GM foods are not to be labeled It is a public knowledge that some of the high officials in the FDA used to work for Monsanto A flood of other GM foods are being prepared for our market This is why people are increasingly allergic to foods For example Pollen from GM genetically modified Bt corn drifted into milkweed It killed most of the feeding larvae of the Monarch butterfly The IMP PRACTICIONS July 1999 Vol 21 7 17 This Ohio study found that Bt treated crops provoke immune changes in crop pickers and handlers indicative of developing allergies Some fish are GM with human cattle and rat s genes to increase their growth Plants are getting antifreeze from flounder Tobacco os GM with human genes to manufacture human blood clotting factors GM corn sold in Britain contains an antibiotic resistance gene It is so powerful that it may degrade antibiotics in human stomach in 30 min Scientists are trying to GM other species with human genetic traits including human behavior Transgenic animals chimeras are being born sickly and suffering Some mice are GM with the human AIDS virus in their genetic code Should they escape and mate with other mice AIDS would be out of control You can not recall Gm crops They contaminate the rest of the plants by pollination It could create a famine The book Farmageddon describes the dangers of modern agriculture Another one The Last Harvest describes the genetic gamble that threatens to destroy American Agriculture People are next They are being cloned now If this will not stop the sacredness of life will cease What might happen There might be clones for spare parts babies nobody wants a Superior race on one side on the other those who nobody wants to raise to employ to marry to insure Cloned soldiers and slaves might follow Genetically engineered bioweapons which could kill millions in a days may be next Read my book Calliope s Castle ISBN 1 4120 0955 3 www.trafford.com From all the information we are getting we see that whatever foods are not GM they are ruined by irradiation The irradiation by nuclear waste have powerful friends in the food processing nuclear industries and medical establishments Also the FDA is planning to remove all current labeling requirements for irradiated food It is said that irradiation destroys much food value live enzymes and vitamins Irradiated foods have a long shelf life because smart microbes and bugs won t touch such foods Europeans are not kept in the dark either Some refuse to buy irradiated food from the USA Please refuse to buy GMO and irradiated foods Protest the removal of the labeling requirement Voice the facts that in people with severe allergies

eating GM food can trigger fatal allergic responses Contact The Campaign to Label Genetically Engineered Foods P O B 55699 Seattle W *1,001 Best Grilling Recipes* Rick Browne,2016-05-10 The definitive cookbook on grilling everything from appetizers to desserts from one of the country's foremost experts and host of PBS's Barbecue America Rick Browne is the author of twelve cookbooks most of which deal with barbecue and grilling In this volume he's created an encyclopedic collection of recipes drawn from cuisines around the world with a particular focus on North American and Asian traditions Browne begins with a brief primer on basic grilling techniques but the real substance of this book is the dazzling array of recipes You'll find dishes everyone can enjoy including standard grill fare like beef and chicken as well as the more unusual shellfish and wild game There are plenty of vegetarian options too and a section for sauces marinades and rubs Never before have this many great grilling recipes been collected into one tome If you love to grill or know someone else who does this is a must have resource It's the only grilling recipe book you'll ever need I play around with my grills all the time but I found loads of new ideas in this grill cookbook Rockport Lobster and Shrimp Burgers yum this cookbook offers many ways to branch out and step it up once the basics are mastered Barbecue Master This is one amazing cookbook I can see myself using this on a weekly basis to try new grilling recipes from around the world BBQ Sauce Reviews **The Best of Closet**
