Wheeler, 2021-05 *Modern Cronies* traces how various industrialists thrown together by the effects of the southern gold rush shaped the development of the southeastern United States Existing historical scholarship treats the gold rush as a self contained blip that aside from the horrors of Cherokee Removal admittedly no small thing and a supply of miners to California in 1849 had no other widespread effects In fact the southern gold rush was a significant force in regional and national history The pressure brought by the gold rush for Cherokee Removal opened the path of the Western some of these iron makers became the industrial talent in the fledgling postbellum city of Birmingham Alabama This book explicates the networks of associations and interconnections across these varied industries in a way that newly interprets the development of the southeastern United States *Modern Cronies* also reconsiders the meaning of Joseph E Brown Georgia's influential Civil

War governor political heavyweight and wealthy industrialist Brown was nurtured in the Etowah Valley by people who celebrated mining industrialization banking land speculation and railroading as a path to a prosperous future Kenneth H Wheeler explains Brown's familial religious and social ties to these people clarifies the origins of Brown's interest in convict labor and illustrates how he used knowledge and connections acquired in the gold rush to enrich himself After the Civil War Brown aided by his sons dominated and modeled a vigorous crony capitalism with far reaching implications
