anyone who envisions a better future *Will Humanity Survive Religion?* W. Royce Clark, 2020-06-22 When the human sciences in the West followed the physical sciences in the 18th and 19th centuries with new measurements methods and language the metaphysics of infinity lost its credibility The response of Western religions was to retrench in a stronger authoritarianism especially by the last half of the 19th century While the new human sciences were being extended even to study the history and philosophy of religions those religions themselves placed more emphasis on their understanding of the Absolute or Unquestionable That split became a burden both to those who were religious and to those who were not Here W Royce Clark argues that humanity s survival may depend on the development of a universal or inclusive ethic in which religions move beyond their Absolutes Clark poses the sharp challenge Are religious communities ready to abandon the foundations that until now they have insisted were the only adequate foundation for ethics **Postapocalyptic Fiction and the Social Contract** Claire P. Curtis, 2010-07-17 Postapocalyptic Fiction and the Social Contract We ll Not Go Home Again provides a framework for our fascination with the apocalyptic events The popular appeal of the end of the world genre is clear in movies novels and television shows Even our political debates over global warming nuclear threats and pandemic disease reflect a concern about the possibility of such events This popular fascination is really a fascination with survival how can we come out alive And what would we do next The end of the world is not about species death but about beginning again This book uses postapocalyptic fiction as a terrain for thinking about the state of nature the hypothetical fiction that is the driving force behind the social contract The first half of the book examines novels that tell the story of the move from the state of nature to civil society through a Hobbesian a Lockean or a Rousseauian lens including Lucifer s Hammer by Larry Niven and Jerry Pournelle Alas Babylon by Pat Frank Malevil by Robert Merle and Into the Forest by Jean Hegland The latter half of the book examines Octavia Butler s postapocalyptic Parable series in which a new kind of social contract emerges one built on the fact of human dependence and vulnerability **Book News** ,1895 *Leaving the South* Mary Weeks-Baxter, 2018-12-05 Millions of Southerners left the South in the twentieth century in a mass migration that has in many ways rewoven the fabric of American society on cultural political and economic levels Because the movements of Southerners and people in general are controlled not only by physical boundaries marked on a map but also by narratives that define movement narrative is central in building and sustaining borders and in breaking them down In *Leaving the South* Border Crossing Narratives and the Remaking of Southern Identity author Mary Weeks Baxter analyzes narratives by and about those who left the South and how those narratives have remade what it means to be southern Drawing from a broad range of narratives including literature newspaper articles art and music Weeks Baxter outlines how these displacement narratives challenged concepts of Southern nationhood and redefined Southern identity Close attention is paid to how depictions of the South particularly in the media and popular culture prompted Southerners to leave the region and changed perceptions of Southerners to outsiders as well as how Southerners saw themselves Through an examination of

narrative Weaks Baxter reveals the profound effect gender race and class have on the nature of the migrant's journey the adjustment of the migrant and the ultimate decision of the migrant either to stay put or return home and she connects the history of border crossings to the issues being considered in today's national landscape *Faulkner and Slavery* Jay Watson, James G.
