The Journal of the Society of Estate Clerks of Works Society of Estate Clerks of Works, London, 1906

Working-class Housing in England Between the Wars Andrzej Olechnowicz, 1997 This book presents an important episode in the twentieth century history of the United Kingdom the largest public housing scheme ever undertaken in Britain and at the time of its planning in the world Built between 1921 and 1934 the London County council's Becontree Estate housed over 110 000 people in 25 000 dwellings Andrzej Olechnowicz discusses the early years of the estate looking in detail at the philosophy behind its construction and management policies and showing how it eventually came to be denigrated as a social concentration camp exemplifying all the political dangers of a mass culture He investigates life on the estate both through an appraisal of the facilities provided and as far as possible through the eyes of the inhabitants using interviews with surviving tenants from the inter war period Thus he is able to show how high rents excluded many families in greatest housing need and how tenants found it difficult to adjust to the costs of suburban living This is a wide ranging study that deals with both the nuts and bolts of mass housing with ideas on citizenship and the creation of communities Surveyor and Municipal and County Engineer, 1906 *Trees in Towns and Cities* Mark Johnston, 2015-08-31 This is the first book on the history of trees in Britain's towns and cities and the people who have planted and cared for them It is a highly readable and authoritative account of the trees in our urban landscapes from the Romans to the present day including public parks private gardens streets cemeteries and many other open spaces It charts how our appreciation of urban trees and woodland has evolved into our modern understanding of the many environmental economic and social benefits of our urban forests A description is also given of the various threats to these trees over the centuries such as pollution damage during the Industrial Revolution and the recent ravages of Dutch elm disease Central and local government initiatives are examined together with the contribution of civic and amenity societies However this historical account is not just a catalogue of significant events but gives a deeper analysis by exploring fundamental issues such as who owned those treed landscapes why they were created and who had access to them The book concludes with the fascinating story of how trees have contributed to efforts to improve urban conditions through various visions of urban green such as the model villages garden cities garden suburbs and the new towns Studies in garden and landscape history have often been preoccupied with those belonging to the rich and powerful This book focuses particularly on working people and the extent to which they have been able to enjoy urban trees and greenspace It will appeal to a general readership especially those with an interest in garden history heritage landscapes and the natural and built environment Its meticulous referencing will also ensure it is much appreciated by students and academics pursuing further reading and research It is written by an internationally renowned arboriculturist who combines a passion for trees with a sound understanding of British social and cultural history *United Methodist*, 1903

Bateman,G. J. Ashworth,2021-06-29 Originally published in 1991 this book focusses on the philosophies histories and processes which have made the West European city system rich in internal variety yet distinct from that of the rest of western industrialised urban society It synthesizes international experiences in particular aspects of urban policy making with reference to Germany France and Benelux The book covers urban planning in its broadest sense from economic socio spacial recreational housing and transport perspectives *The Railway Times* ,1905 **The Garden City Movement Up-To-Date** Ewart Gladstone Culpin,2015-03-05 This work was written and compiled by the then Secretary of the Garden Cities and Town Planning Association in 1913 It shows just how much the conception of the garden city had been broadened from Howard s original texts Indeed the Association s own name had been broadened to add the newly emergent practice and theory of town planning to the original focus Alongside the garden city recognition is now given to the burgeoning numbers of garden suburbs and garden villages Many examples of these are identified and briefly described including many which are small and now little known greatly adding to the interest of the publication Even the underlying arguments for such developments differ Alongside the more altruistic arguments in favour of reform there are now those which explicitly emphasise the need to ensure a healthy race to maintain the Empire [21st Century Garden Cities of To-Morrow](#) Philip Ross,2015-04-28 The two authors complement each other beautifully one a visionary and gutsy politician the other a gifted academic with a deep rooted social conscience With the benefit of a century of post Letchworth Garden City knowledge and

the lessons of two World Wars their timely released book re brands the Garden City from a social as well as a technical point of view It says it s a manifesto for 21st Century Garden Cities of To Morrow but it could equally be a manifesto for decent human urban survival on our cherished Planet It concentrates on the role of each citizen his or her responsibilities and opportunities It advocates restoring basic human values back to ordinary people away from the I m doing you a favour private pro bono benefaction and or cash starved governmental institutions that seem to know the cost of everything but the value of nothing
