 Moore,2009-11-30 This book is a practical guide addressing the issues faced by philanthropists seeking to engage in
 international charitable activities and offers alternative approaches to traditional US based foundations A significant portion
 of the regulatory burdens facing US private foundations derives from tax benefits available to donors under US law A
 charitable organization must initially qualify and then be maintained under a complex regulatory regime If some or all of
 these tax benefits are either unavailable or not needed or if the tax advantages are outweighed by the burdens of regulatory
 compliance foundations can be established in foreign jurisdictions Charitable activities can then be operated flexibly and
 privately outside the constraints of the US regulatory regime For existing private foundations this book suggests strategies
 designed to hedge against ever increasing and intrusive regulation Consumers' Guide ,1943 Japanese War Crimes

 Administration,200? This finding aid will help researchers interested in Japanese war crimes war criminals and war crimes
 trials to navigate the vast holdings of the U S National Archives and Records Administration at College Park NARA It will also
 be useful to anyone interested in military intelligence political diplomatic economic financial social and cultural activities in
 the Far East during 1931 1951 as well as to those searching for information regarding Allied prisoners of war the
 organization functions and activities of American and Allied agencies and the Japanese occupation of countries and the
 American occupation of Japan While not aimed at researchers interested in the strategic and tactical military and naval
 history of the war in the Far East this finding aid may nevertheless be useful to those with such interests if only to identify
 record groups and series of records that may bear on those topics This finding aid covers records from over twenty record
 groups and includes materials declassified under the Japanese Imperial Government Disclosure Act of 2000 P L 106 567 as
 well as records that were never classified and those declassified before the passage of the Disclosure Act Because the

process of identifying declassifying accessioning and processing of records under the Act is taking place as this finding is being compiled late arriving records may not be identified in this finding aid Researchers should consult the IWG Web site <http://www.archives.gov/iwg> for a complete and up to date list of records declassified under the Japanese Imperial Government Disclosure Act Federal agencies involved in the identification and declassification of relevant classified records ascertained that there were relatively few pertinent records that were still classified Most relevant records were either never classified or were declassified decades before the Act and were already in NARA s custody While this finding aid s coverage is broad it is not comprehensive Researchers may find other relevant series of records within the record groups mentioned or not mentioned Researchers are encouraged to use other finding aids and consult with NARA staff to locate records of interest In addition the National Archives at College Park holds nontextual records such as still photographs and motion pictures that researchers may want to examine Other NARA facilities hold many records and donated material related to World War II including records related to the subjects covered in this finding aid This is particularly true of the Franklin D Roosevelt the Harry S Truman and the Dwight D Eisenhower Think of archives as vast mountain ranges of records with the archivists guiding the expeditions Explorations on familiar well trodden paths produce new perspectives when examined with fresh eyes and imagination
