for its practitioners the historians So man s attitude to history is ambiguous The controversy about history continues Widely differing issues are at stake Historians themselves however are the least engaged in the struggle Rarely does a historian decide to open the door of his study and join in the melee about the meaning of history More often he slams it shut and returns to his studies oblivious of the fact that with the passage of thne the gap between his scientific work and its audience might widen The historian does not shun the battle he merely chooses his own battleground
