Routledge is an imprint of Taylor Francis an informa company America's Philosophical Vision John E. Smith, 1992-06-15

In these previously uncollected essays Smith argues that American philosophers like Peirce James Royce and Dewey have forged a unique philosophical tradition one that is rich and complex enough to represent a genuine alternative to the analytic phenomenological and hermeneutical traditions which have originated in Britain or Europe In my judgment John Smith has no equal today in combining two scholarly qualities the analysis of philosophical texts with penetration and rigor and the discernment of what it is in these texts that matters These qualities are in evidence throughout the essays in America's Philosophical Vision Whether he is evaluating Rorty's view of Dewey the pragmatic theory of experience and truth theories of freedom creativity and the self Royce's conception of community or synoptic philosophic visions Smith always succeeds in uniting a comprehensive understanding of philosophic writings with a sure grasp of their import for human culture and aspiration It is a great benefit to students of American thought that these papers have now been collected into one volume James Gouinlock Emory University **Managing: Fast Track to Success ePub eBook** Chris O'Neill, Jonathan
