Hair Of The Alien Dna And Other Forensic Evidence Of Alien Abductions:

Hair of the Alien Bill Chalker, 2005-08-19 The shocking true story of a case unlike any other in the annals of UFO investigation DNA research or alien abduction July 23 1992 In Sydney Australia twenty eight year old Peter Khoury was awoken by what appeared to be two females both striking and unearthly kneeling on his bed What transpired between them was a physical assault as bizarre and disorienting as it was unnatural Then as quickly as they had arrived they vanished Khoury had become one of a legion of alien abductees with inexplicable experiences but this particular incident stood apart from all the others This time there was evidence two strands of white blond hair from one of the females Khoury s case would result in the very first forensic DNA analysis of alien abduction evidence and revealed an extraordinary biological anomaly one genetically close to human yet almost impossibly far from the human mainstream A gripping account of one of the great mysteries of our time *Hair of the Alien* brings us closer than ever before to understanding our past our origins and our place in the universe

Earth: An Alien Enterprise Timothy Good, 2013-11-05 A worldwide history of alien contact from one of the most respected authorities on the phenomenon A bible for UFO watchers *The Wall Street Journal* This fascinating new volume tells the story of contact between aliens and humans from all across the globe dating back to 1932 including meetings with military personnel and American presidents such as Eisenhower and Kennedy For the first time a former member of MI6 reveals her conversation with Neil Armstrong at a NASA conference when she confirmed that there were other spacecraft on the moon when Apollo 11 landed in 1969 Armstrong also confirmed that the CIA was behind the cover up In a further admission in December 2012 Russian Prime Minister Dmitry Medvedev revealed the president of Russia is given a special top secret folder that in its entirety contains information about aliens who have visited our planet Along with this the president is given a report of the Special Service that exercises control over aliens in our country I will not tell you how many of them are among us because it may cause panic

Out of Time Steve Aspin, 2023-08-24 In *Out of Time* The Intergenerational Abduction Program Explored author Steve Aspin has written a crossover work about the enduring worldwide reports of alien abduction The book is intended for both those familiar with the historic published case material and the curious reader unfamiliar with the decades of serious academic research on this superficially improbable phenomenon The author details his lifelong personal experience and the relationships he built with leading researchers during 15 years of investigating this phenomenon He has at all times attempted to approach the subject with critical thoroughness and intellectual rigour From stumbling on a cattle mutilation in Ireland in 1970 to witnessing a UFO after a period of missing time at age 16 in 1972 to a confrontational experience in a Sardinia hotel in 2006 the author relates a lifetime of anomalous experiences But this is only the starting point of the journey the reader of *Out of Time* will make Steve then details several years of investigation into the subject and how what he has learned has shaped his thoughts on what is happening to perhaps millions of people worldwide He had the good fortune to meet with several leading researchers in the

field including Budd Hopkins and Dr David Jacobs and read hundreds of published works on the subject of UFOs and abductions He has attempted to bring hard forensic evidence to the discussion and to follow that evidence where it may lead paying particular attention to the clearly intergenerational aspect of the global abduction program which he demonstrates with corroborating evidence almost certainly dates from the 1890s His conclusions will be of interest to anyone attentive to this field of study Whether inevitably proved right or wrong they stem from a conscious effort to bring objectivity and honesty to the analysis of this widely reported phenomenon Although successfully normalised in popular culture to become background noise or a minor comic footnote in otherwise busy lives this subject has real and serious implications for both the individual experiencer and human society collectively

How to Talk to an Alien Nancy du Tertre, 2015-10-19 Even for nonbelievers the author's palpable excitement over the subject matter is endearing and entertaining Ufologists won't want to miss this work Foreword Reviews In 1972 American astronomer and ufologist J Allen Hynek first coined the term close encounter He also identified three types of close encounters with UFOs Since then several more types of encounters have been proposed A close encounter of the fourth kind is an alien abduction A closer encounter of the fifth kind is voluntary bilateral contact with an alien species We are no longer just looking at strange flying objects in the skies now we are beginning to interact with the actual pilots crew and passengers Do aliens exist In 2013 one poll showed that nearly half of all Americans 48 percent believe UFOs may be a sign of extraterrestrial visitation another found that 10 percent of Americans claim to have actually witnessed an actual UFO and yet another showed that 29 million Americans believe they had actually been abducted by aliens If aliens exist and are visiting us we need to talk Who will speak to them on behalf of planet Earth Who can translate their intentions good or evil toward the human race How can we learn about their advanced technologies Can aliens speak human languages These and even more fascinating questions are all addressed in How to Talk to an Alien Nancy du Tertre covers the various considerations involved with extraterrestrial communication including the use of alien technology ET linguistics and the possibility of using telepathy and dreams Her handbook for the future should be on every thinking person's bookshelf Jim Marrs New York Times bestselling author
