Handbook of Helminthiasis for Public Health D. W. T. Crompton, Lorenzo Savioli, 2006-08-18 Written by internationally respected experts Handbook of Human Helminthiasis provides information essential in the development of an integrated approach to the prevention control and treatment of disease caused by endoparasitic helminths The text is divided into sections dealing with the main groups of helminth infections and the diseases they i

Controlling Disease Due to Helminth Infections Crompton D.W.T., 2003 Helminth infections are caused by parasitic worms including tapeworms and roundworms These diseases are associated with poverty and in school age populations in developing countries intestinal helminth infections rank first among the causes of all communicable and noncommunicable diseases This book is based on papers presented at an OECD conference held in Bali Indonesia in February 2000 which sought to review activities for the control of diseases due to soil transmitted helminth infections in Indonesia and neighbouring countries

Preventive Chemotherapy in Human Helminthiasis World Health Organization, 2006 This manual focuses on how and when a set of low cost or free drugs should be used in developing countries to control a set of diseases caused by worm infections Preventive chemotherapy in this context means using drugs that are effective against a broad range of worm infections to simultaneously treat the four most common diseases caused by worms river blindness onchocerciasis elephantiasis lymphatic filariasis schistosomiasis and soil transmitted helminthiasis Significant opportunities also exist to integrate these efforts with the prevention and control of diseases such as trachoma The new approach provides a critical first step in combining treatment regimens for diseases which although different in themselves require common resources and delivery strategies for control or elimination

GUIDE TO HUMAN HELMINTHS CL Isabel Coombs, David William Thomasson Crompton, 1991-08-01 In entries of standard format provides information on all the 342 species of worms known to be parasitic to humans Lists intermediate hosts geographical distribution location in the body any associated diseases and mode of transmission Lengthy tables also outline the classification of the parasites and summarize the information in the entries Annotation copyrighted by Book News Inc Portland OR

Research Priorities for Helminth Infections TDR Disease Reference Group on Helminth Infections, World Health Organization, 2012 Over a billion people in sub Saharan Africa Asia and the Americas are infected with one or more helminth species causing morbidity that helps maintain the vicious cycle of poverty decreased productivity and inadequate socioeconomic development This report presents an evaluation of current research and challenges in controlling the helminthiases of public health importance including onchocerciasis lymphatic filariasis soil transmitted helminthiases schistosomiasis food borne trematodiases and taeniasis cysticercosis The evaluation covers five major themes intervention epidemiology and surveillance environmental

and social ecology data and modelling and fundamental biology Despite the recent demonstrated successes and expansion of tools for the helminthiases outlined here and the development of some research capacity the evaluation found major deficiencies in our current control tools in diagnostics and in our fundamental knowledge of helminth biology and transmission dynamics as well as in capacity and policy for health research Thus the current research issues are summarized here and opportunities for improving disease control and reducing poverty are identified Recommendations are presented to inform public health policy guide implementation programs and focus the research community on the needs of disease control and the opportunities for bettering human welfare This is one of ten disease and thematic reference group reports that have come out of the TDR Think Tank all of which have contributed to the development of the Global Report for Research on Infectious Diseases of Poverty **Preventive Chemotherapy in Human Helminthiasis** ,2003
