The Conqueror's Gift Michael Maas, 2025-02-25 The essential role of ethnographic thought in the Roman empire and how it evolved in Late Antiquity Ethnography is indispensable for every empire as important as armies tax collectors or ambassadors It helps rulers articulate cultural differences and it lets the inhabitants of the empire especially those who guide its course understand themselves in the midst of enemies allies and friends In The Conqueror's Gift Michael Maas examines the ethnographic infrastructure of the Roman Empire and the transformation of Rome's ethnographic vision during Late Antiquity Drawing on a wide range of texts Maas shows how the Romans ethnographic thought evolved as they attended to the business of ruling an empire on three continents Ethnography the conqueror's gift gave Romans structured ways of finding a place for foreigners in the imperial worldview and helped justify imperial action affecting them In Late Antiquity

Christianity revolutionized the imperial ethnographic infrastructure by altering old concepts and introducing credal models of community The Bible became a source for organizing the Roman world At the same time many previously unseen collective identities emerged across Western Eurasia in reaction to the diminution of Roman power These changes deeply affected the Empire's ethnographic infrastructure and vision of the world Maas argues that a major consequence of these developments was the beginning of a sectarian age as individuals and political communities came to identify themselves primarily in terms of religion as well as ethnicity As they adjusted to changing ethnographic realities Romans understood their place among the peoples of the world in new ways Willingly or not we continue to be recipients of the conqueror's gift today **Ben Porat**

Yosef Michael Avioz, Omer Minka, Yael Shemesh, 2019-10-15 Phoenician culture was that of autonomous city states Indeed the Phoenicians seem to have zealously held on to this Bronze Age social structure long after it gave way to nationalism and statehood in the southern Levant Modern scholars often tend to emphasize the regional and individual nature of each Phoenician city to a point that some even question whether the Phoenicians can be referred to as an ethnic unit As Aubet 2001:9 stated the Phoenicians were a people without a state without territory and without political unity In this study the author aims at examining this very issue through an analysis of the Phoenicians in the eastern Mediterranean during the Iron Age I-III ca 1200-332 BCE the zenith of the Phoenician civilization By analyzing various aspects of the material culture which were unique to the Phoenicians throughout the periods in question the author shall attempt to identify a Phoenician koine i.e. a shared material culture which reflected a common ethnic religious cultic and social identity Burke 2008:160 which developed despite the lack of political unity **Targums and Rabbinic Literature** Zondervan, 2024-09-10 Ancient

Solomon,2024-10-15 What we now call Judaism is the religion of the rabbis it is rooted in scripture the Hebrew Scriptures but it is not to be identified with Old Testament theology Judaism in its many manifestations has continued to evolve rereading its ancient texts and extracting new meaning while addressing contemporary issues such as the status of women and attitudes to sexual orientation History or rather our perception of it has changed substantially Previously unknown documents and artefacts have surfaced while scholars have proposed far reaching changes to the way we read and evaluate ancient texts Nowadays we have a more nuanced understanding of how to evaluate statements in the Talmud and other rabbinic writings and we are better able to contextualize them not only in Greco Roman antiquity but also in the Sasanian environment in which the Babylonian Talmud was formed Historical Dictionary of Judaism Fourth Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 800 cross referenced entries on on important personalities in Jewish religious history including biblical personalities with an emphasis on how they are understood in Jewish Christian and Islamic tradition This book is an excellent access point for students researchers and anyone wanting to know more about Judaism **Enoch from Antiquity to the Middle Ages** John C. Yoshiko Reed,2018 Across the ancient and medieval literature of Judaism Christianity and Islam one finds references to the antediluvian sage Enoch Both the Book of the Watchers and the Astronomical Book were long known from their Ethiopic versions which are preserved as part of Mashafa Henok Nabi Book of Enoch the Prophet an Enochic compendium known in the West as 1 Enoch Since the discovery of Aramaic fragments among the Dead Sea Scrolls these books have attracted renewed attention as important sources for ancient Judaism Among the results has been the recognition of the surprisingly long and varied tradition surrounding Enoch Within 1 Enoch alone for instance we find evidence for intensive literary creativity This volume provides a comprehensive set of core references for easy and accessible consultation It shows that the rich afterlives of Enochic texts and traditions can be studied more thoroughly by scholars of Second Temple Judaism and

early Christianity as well as by scholars of late antique and medieval religions Specialists in the Second Temple period the era in which Enochic literature first appears will be able to trace or discount the survival of Enochic motifs and mythemes within Jewish literary circles from late antiquity into the Middle Ages thereby shedding light on the trajectories of Jewish apocalypticism and its possible intersections with Jewish mysticism Students of Near Eastern esotericism and Hellenistic philosophies will have further data for exploring the origins of gnosticism and its possible impact upon sectarian currents in Judaism Christianity and Islam Those interested in the intellectual symbiosis among Jews Christians and Muslims in the Middle Ages and especially in the transmission of the ancient sciences associated with Hermeticism e g astrology theurgy divinatory techniques alchemy angelology demonology will be able to view a chain of tradition reconstructed in its entirety for the first time in textual form In the process we hope to provide historians of religion with a new tool for assessing the intertextual relationships between different religious corpora and for understanding the intertwined histories of the major religious communities of the ancient and medieval Near East
