Psychology of Gender Vicki S. Helgeson, 2020-02-21. Noted for its fair and equal coverage of men and women.

Psychology of Gender reviews the research and issues surrounding gender from multiple perspectives including psychology, sociology, anthropology, and public health. Going far beyond discussions of biological sex and gender identity, the text explores the roles that society has assigned to females and males and the other variables that co-occur with sex, such as status and gender-related traits. The implications of social roles, status, and gender-related traits for relationships and health are also examined. The text begins with a discussion of the nature of gender and development of gender roles, before reviewing communication and interaction styles and how they impact our friendships and romantic relationships. It concludes with an exploration of how gender influences both physical and mental health. New to the 6th Edition: Emphasis on the intersectionality of gender, considering it as a part of wider social categories such as race, ethnicity, social class, and gender identity. Recognition of the increasingly prevalent view that gender is nonbinary. Extended coverage of LGBTQ individuals, their relationships, and their health. Expanded discussions of key issues including gender role strain, gender fluidity, women and STEM, parenthood, balancing family and work demands, online communication, and sexual harassment. Accompanied by a comprehensive companion website featuring resources for students and instructors alongside extensive student learning features throughout the book. *Psychology of Gender* is an essential read for all students of gender from psychology, women's studies, gender studies, sociology, and anthropology.

Consumer Psychology Brian M. Young, 2018-07-04. This book approaches consumer psychology from a unique perspective; it covers the entire lifespan from birth to old age. Childhood and youth are not discussed as areas special, different, and remote from the rest of consumer research, but are integrated into our development as humans. Consumption is viewed as a process by groups and individuals.

with the cycle continuing through to disposal or ownership and possession The author discusses how people's natural lifespan influences their relationship to the things they own how preferences are developed from childhood and how motivations for purchases change throughout their lives from childhood to old age This book brings together the most recent findings and theories on child and youth consumption including children's understanding of advertising and marketing teen and youth identities and their consumption tastes Moving through Erikson's life stages chapters continue on to adulthood the mid life crisis and possessions and ownership in older consumers This is a deeply interdisciplinary work that will be of interest to scholars across the fields of psychology business and marketing as well as to the more general consumer
