Handbook of Japanese Semantics and Pragmatics Wesley M. Jacobsen, Yukinori Takubo, 2020-10-12

The volume on Semantics and Pragmatics presents a collection of studies on linguistic meaning in Japanese either as conventionally encoded in linguistic form, the field of semantics, or as generated by the interaction of form with context, the field of pragmatics, representing a range of ideas and approaches that are currently most influential in these fields. The studies are organized around a model that has long currency in traditional Japanese grammar whereby the linguistic clause consists of a multiply nested structure centered in a propositional core of objective meaning around which forms are deployed that express progressively more subjective meaning as one moves away from the core toward the periphery of the clause. The volume seeks to achieve a balance in highlighting both insights that semantic and pragmatic theory has to offer to the study of Japanese as a particular

language and conversely contributions that Japanese has to make to semantic and pragmatic theory in areas of meaning that are either uniquely encoded or encoded to a higher degree of specificity in Japanese by comparison to other languages such as conditional forms expressing varying types of speaker modality and social deixis

amateur linguist was able to make such a lasting contribution to the field It also reproduces Lyman s 1894 article as well as his earlier article on the pronunciation system of Japanese each followed by extensive commentary In addition it offers an English translation of a thorough critique of Lyman s 1894 article published in 1910 by the prominent Japanese linguist Ogura Shinpei Lyman s work on rendaku included much more than just Lyman s Law and the final chapter of this book assesses all his proposals from the standpoint of a modern researcher

Literacy and Script Reform in Occupation Japan J. Marshall Unger, 1996-08-01 This book challenges the widespread belief that overzealous Americans forced unnecessary script reforms on an unprepared unenthusiastic but helpless Japan during the Occupation Unger presents neglected historical evidence showing that the reforms implemented from 1946 to 1959 were both necessary and moderate Although the United States Education Mission of 1946 recommended that the Japanese give serious consideration to the introduction of alphabetic writing key American officials in the Civil Information and Education Section of GHQ SCAP delayed and effectively killed action on this recommendation Japanese advocates of romanization nevertheless managed to obtain CI the Ministry of Education was ordered to prepare a report that misrepresented the goal of the experiment and claimed it proved nothing The whole episode dropped from official and scholarly view until the publication of this book
