Finding Safe Harbour Emily Pelley,2022-02-15 The global refugee crisis is staggering in scope The

United Nations Refugee Agency reported that 79.5 million people were displaced worldwide in 2019 and over half of all displaced persons were under eighteen. As the number of children and teenagers seeking asylum continues to grow, the impact of displacement on a young person's well-being and development over the long term requires further study. In *Finding Safe Harbour*, Emily Pelley investigates the current response to refugee youth in Canada by highlighting how Halifax, Nova Scotia, as a mid-sized urban centre, has mobilized services and resources to support young people seeking refuge. Opening with a broad contextual introduction to the global crisis of displacement and the impact of violence and armed conflict on young people, Pelley focuses on the reciprocal adaptation that is required for the long-term integration of displaced youth into the receiving society. A concise and illuminating study on refugee resettlement, *Finding Safe Harbour* concludes with an in-depth discussion of how cities can optimize resilience resources through meaningful engagement with refugee youth.

Chapters provide guidance in promoting and protecting child rights when dealing with critical issues relevant to the school community, including well-being, freedom from violence, and access to high-quality education. In addition, chapters analyze and offer recommendations for child rights applications within the roles and responsibilities of school psychologists. The handbook concludes with future directions for achieving a child rights approach for school psychology.
