losses These findings challenge the notion of migration as adaptation and emphasize the importance of safeguarding the human rights and security of those affected while addressing loss and damage Without significant investments in such efforts climate impacts could sharply diminish the well being of numerous subsistence farmers worldwide irrespective of whether they stay or migrate Changing Perspectives on the Social Sciences in Ghana Samuel Agyei-Mensah, Joseph Atsu

institutional structures institution building by resolving power inequities in a rural ecosystem in India and advocates the identification of an appropriate institutional champion to make this happen The book develops a power asymmetry based framework and argues that a champion with the right attributes and the ability to convene people over a social issue can only succeed if he she can resolve or reduce the deep rooted societal power asymmetries within that community It also presents
