Spirits of the Space Age Kelly E. Hayes, 2024 Since its inauguration in 1960 Brazil s capital city Bras lia has become an

internationally recognized center for eclectic forms of modern mysticism Among the dozens of New Age Spiritist esoteric and occult communities that have sprouted in the city and its environs the most spectacular is the Valley of the Dawn Vale do Amanhecer Equal parts religious movement enchanted city utopian vision and theatrical spectacle the Valley of the Dawn is a unique psychic ecosystem Community members consider themselves the spiritual descendants of an ancient race of extraterrestrials originally sent to galvanize humanity's cultural and spiritual evolution Wearing dazzling garments that reference their past lives in different cultural eras adherents perform daily ceremonies for karmic redemption and offer spiritual healing services free of charge to the public The Valley of the Dawn was founded by a charismatic spirit medium called Aunt Neiva a widowed mother of four who came to Brasília in 1957 to work in the construction of the new capital city Over two decades Aunt Neiva established a spiritual metropolis that today is home to over 25 000 people and the headquarters of a global religious movement with more than 800 affiliated temples worldwide Spirits of the Space Age details the Valley's historical emergence placing it within the context of mid twentieth century Brazil and explores its imagined world the imaginative and collectively shared representations that foster a common sense of identity meaning and purpose among Valley members Drawing on extensive ethnographic fieldwork it offers a narrative portrait of a new religious movement as seen in and through the lives of Aunt Neiva her most important collaborators and contemporary adherents By presenting a more complete picture of the Valley of the Dawn this book counters the persistent media representations of the Valley as a cult But it also illuminates how religious movements respond to their place and time even as they situate themselves in relationship to imagined otherworlds and times *The Myth of Disenchantment* Jason A.

Josephson-Storm,2017-05-18 This study of the early human sciences and their deep connections to spiritualism dispenses with the myth that separates magic and modernity Many theorists contend that the defining feature of modernity is our collective loss of faith in spirits myths and magic But in *The Myth of Disenchantment* Jason A Josephson Storm argues against this narrative showing that attempts to suppress magic have failed more often than not Even the human sciences have been more enchanted than is commonly supposed But that raises the question How did a magical spiritualist mesmerized Europe ever convince itself that it was disenchanted Josephson Storm traces the history of the myth of disenchantment in the births of philosophy anthropology sociology folklore psychoanalysis and religious studies He demonstrates that the founding figures of these mythless disciplines were in fact profoundly enmeshed in the occult and spiritualist revivals of Britain France and Germany It was in response to this milieu that they produced notions of a disenchanted world By providing a novel history of the human sciences and their connection to esotericism *The Myth of Disenchantment* dispatches with most widely held accounts of modernity and its break from the premodern past Religious Individualisation Martin Fuchs,Antje Linkenbach,Martin Mulsow,Bernd-Christian Otto,Rahul Bjørn Parson,Jörg Rüpke,2019-12-16 This volume brings together key findings of the long term research project *Religious Individualisation in Historical Perspective* Max Weber Centre for

Advanced Cultural and Social Studies Erfurt University Combining a wide range of disciplinary approaches methods and theories the volume assembles over 50 contributions that explore and compare processes of religious individualisation in different religious environments and historical periods in particular in Asia the Mediterranean and Europe from antiquity to the recent past Contrary to standard theories of modernisation which tend to regard religious individualisation as a specifically modern or early modern as well as an essentially Western or Christian phenomenon the chapters reveal processes of religious individualisation in a large variety of non Western and pre modern scenarios Furthermore the volume challenges prevalent views that regard religions primarily as collective phenomena and provides nuanced perspectives on the appropriation of religious agency the pluralisation of religious options dynamics of de traditionalisation and privatisation the development of elaborated notions of the self the facilitation of religious deviance and on the notion of dividuality *Like a Tree Universally Spread* Keith Edward Cantú, 2023 This book reconstructs the tantalizing tale of Sri Sabhapati Swami ca 1828 1923 4 today a little known swami who was originally from Tamil Nadu in southern India and historically contextualizes a fascinating type of yoga that Sabhapati claimed would lead to an experience of being like a tree universally spread The practical method of having this experience in technical terms called the samadhi or composure of sivarajayoga or the Royal yoga for siva was published in English and multiple Indic languages and lavishly illustrated in diagrams on subtle and physical bodies This book is the first book length treatment on Sabhapati Swami scholarly or otherwise and uses critically edited sources printed in Tamil Devanagari and Bengali scripts to reveal the expansion of his literature across South Asia and globally the vast majority of which has never before been considered in any scholarly work to date The book shows how intertwined Sabhapati s yoga is with historical Tamil saiva and Siddha movements including the mythos of the rishi Agastya and also with Hathayoga and mantra based ritual It also takes into account his and his followers wrestling with the Victorian scientific worldview and their rationalization of Hindu philosophical discourses in the colonial period Finally the book demonstrates the extent to which Sabhapati s teachings were integrated into esoteric religious movements such as the Theosophical Society the Thelema of Aleister Crowley and New Thought and suggests that a reappraisal of scholarship on the roots of yoga in these movements is long overdue Recycled Lives Julie Chajes, 2019-01-02 In Recycled Lives Julie Chajes explores the rebirth doctrines of the controversial occultist Helena Petrovna Blavatsky 1831 1891 matriarch of Theosophy Examining her teachings in detail Chajes places them in the context of multiple dimensions of nineteenth century intellectual and cultural life
