Handbuch Einer Transnationalen Geschichte Ostmitteleuropas:

Handbuch einer transnationalen Geschichte Ostmitteleuropas Frank Hadler, Matthias Middell, 2017-02-13 Der Trend der internationalen Forschung hin zu Fragen die nicht allein im Rahmen nationaler Geschichten beantwortet werden können scheint ungebrochen Während die Zahl der Angebote von transnationalisierten Nationalgeschichten einzelner Staaten stetig steigt sind Versuche in Richtung von Transnationalisierungsgeschichten ganzer Regionen mit mehreren Staaten und Nationen noch nicht in Angriff genommen worden Diese Lücke für Ostmitteleuropa zu schließen ist Anliegen des Buches Im Zentrum des ersten Bandes dieser auf drei Bände angelegten transnationalen Geschichte Ostmitteleuropas steht die Zeit von der Mitte des 19. Jahrhunderts bis zum Ersten Weltkrieg Behandelt werden fünf Dimensionen in denen die Transnationalität der zwischen Ostsee und Adria Deutschland und Russland zu verortenden Geschichtsregion zu beobachten ist 1 die De- und Reterritorialisierungen in der Region einschließlich der kulturellen und politischen Reaktionen auf neue Raumordnungen 2 die Migrationen aus durch und in die Region 3 die wirtschaftlichen Verflechtungen transnationalen Marktbeziehungen und Infrastrukturen 4 kulturelle Grenzüberschreitungen und Kulturtransfers 5 die Vertretung der Region im System der Internationalen Organisationen und Netzwerke transnationaler Akteure Jedes Kapitel stellt einerseits den spezifischen Transnationalisierungsaspekt auf der Basis empirischer Befunde dar andererseits diskutiert es mit Blick auf den internationalen Forschungsstand weiterführende Forschungsfragen Die methodische Debatte und die empirischen Einzelforschungen der transnationalen Geschichte sind weit vorangeschritten Dieser Band bietet die erste zusammenfassende Darstellung

Shifting Lines, Entangled Borderlands Jan Musekamp, 2024-03-05 Tracing multiple mobilities entangled borderlands microhistory and space and human and nonhuman actors Jan Musekamp demonstrates how an inner Prussian railroad line turned into a transnational force overcoming borders and connecting Europeans in a time of rising nationalism *Shifting Lines Entangled Borderlands* investigates the dichotomy between a globalizing world and tighter border control in nineteenth century Central and Eastern Europe focusing on the Royal Prussian Eastern Railroad Ostbahn between the 1830s and 1930s The line was initially planned as a major internal modernizing project to connect Prussia's capital of Berlin to East Prussia's provincial capital of Königsberg today's Kaliningrad Soon the Ostbahn connected to the growing Imperial Russian railroad network thus becoming a backbone of European East West transportation in trade tourism technological exchange and migration The First World War temporarily disrupted and reconfigured existing networks adapting them to new political regimes and borders However World War II and its aftermath altered mobility patterns more permanently dividing not only the Ostbahn tracks but the whole continent for decades to come From border towns and major cities to unique structures such as stations or bridges this volume analyzes the obvious and not so obvious nodes of the Central and Eastern European rail network and the spaces in between

Spatial Formats under the Global Condition Matthias Middell, Steffi Marung, 2019-08-05 Contributions to this volume summarize and discuss the theoretical foundations

of the Collaborative Research Centre at Leipzig University which address the relationship between processes of re spatialization on the one hand and the establishment and characteristics of spatial formats on the other hand Under the global condition spatial formats are products of collective negotiations on the most effective and widely acceptable balance between the claim for sovereignty and the need for interconnectedness *Transregional Connections in the History of East-Central Europe* Katja Castryck-Naumann,2021-10-25 Transregional connections play a fundamental role in the history of East Central Europe This volume explores this connectivity by showing how people from eastern and central parts of Europe have positioned themselves within global processes while in turn also shaping them The contributions examine different fields of action such as economy arts international regulations and law development aid and migration focusing on the period between the middle of the nineteenth century and the end of the Cold War The authors uncover spaces of interaction and emphasize that internal and external entanglements have established East Central Europe as a distinct region Understanding the connectedness of this subregion is stimulating for the historiography of East Central Europe as it is for the field of global history Yearbook of Transnational History Thomas Adam,2018-05-31 The Yearbook of Transnational History is dedicated to disseminating pioneering research in the field of transnational history This inaugural volume provides readers with articles on topics such as soccer travel music and social policy These articles highlight the movement of ideas people policies and practices across various cultures and societies and explore the relations and connections and spaces created by these movements These articles make clear that historical phenomena from travel to music cannot be contained and explained within just one national setting The volume offers further a number of theoretical and methodological articles that provide insights into the concept of transnational history and the approach of intercultural transfer studies Last but not least the volume also includes a number of review articles These review articles provide an examination of books central to teaching transnational history as well as a historiographical exploration of the impact of transnational history on the field of sports history *Writing the History of Nationalism* Stefan Berger,Eric Storm,2019-09-19 What is nationalism and how can we study it from a historical perspective Writing the History of Nationalism answers this question by examining eleven historical approaches to nationalism studies in theory and practice An impressive cast of contributors cover the history of nationalism from a wide range of thematic approaches from traditional modernist and Marxist perspectives to more recent debates around gender postcolonialism and the global turn in history writing This book is essential reading for undergraduate students of history politics and sociology wanting to understand the complex yet fascinating history of nationalism On Many Routes Annemarie Steidl,2020-11-15 On Many Routes is about the history of human migration With a focus on the Habsburg Empire this innovative work presents an integrated and creative study of spatial mobilities from short to long term and intranational and inter European to transatlantic Migration was not just relegated to city folk but likewise was the reality for rural dwellers and we gain a better understanding of how sending and receiving states and shipping companies worked

together to regulate migration and shape populations Bringing historical census data governmental statistics and ship manifests into conversation with centuries old migration patterns of servants agricultural workers seasonal laborers peddlers and artisans both male and female this research argues that Central Europeans have long been mobile that this mobility has been driven by diverse motivations and that post 1850 transatlantic migration was an obvious extension of earlier spatial mobility patterns Demonstrating the complexity of human mobility via an exploration of the links between overseas continental and internal migrations On Many Routes shows that migrations to the United States to the nearest coalfield and to the urban capitals are embedded within complicated patterns of movement There is no good reason to study internal apart from transnational moves and combining these fields brings ample possibility to make migration research more relevant for the much broader field of social and economic history This work poses an invaluable resource to the understudied area of Habsburg Empire migration studies which it relocates within its wider European context and provides a major methodological contribution to the history of human migration more broadly The ubiquity and functionality of human movement sheds light on the relationship between human nature and society and challenges simplistic notions of human mobility then and now

Iron Landscapes Felix Jeschke, 2021-08-13 Throughout the 1920s and 1930s the newly formed country of Czechoslovakia built an ambitious national rail network out of what remained of the obsolete Habsburg system While conceived as a means of knitting together a young and ethnically diverse nation state these railways were by their very nature a transnational phenomenon and as such they simultaneously articulated and embodied a distinctive Czechoslovak cosmopolitanism Drawing on evidence ranging from government documents to newsreels to train timetables Iron Landscapes gives a nuanced account of how planners and authorities balanced these two imperatives bringing the cultural history of infrastructure into dialogue with the spatial history of Central Europe

Explorations in Economic Anthropology Deema Kaneff, Kirsten W. Endres, 2021-07-16 At a time of rising global economic precarity and social inequality the field of economic anthropology offers solutions through the study of local and contextualized economic practices This book is made up of an exciting collection of succinct essays authored by leading scholars primarily from the field of economic anthropology but also featuring contributions from sociology and history The chapters engage with debates at the cutting edge of research on the topics of Eurasia the anthropology of postsocialism and the embeddedness of economic practices

Budapest's Children Friederike Kind-Kovács, 2022-07-05 In the aftermath of World War I international organizations descended upon the destitute children living in the rubble of Budapest and the city became a testing ground for how the West would handle the most vulnerable residents of a former enemy state Budapest's Children reconstructs how Budapest turned into a laboratory of transnational humanitarian intervention Friederike Kind Kovács explores the ways in which migration hunger and destitution affected children's lives casting light on children's particular vulnerability in times of distress Drawing on extensive archival research Kind Kovács reveals how Budapest's children as iconic victims of the war's aftermath were used to mobilize

humanitarian sentiments and practices throughout Europe and the United States With this research Budapest's Children investigates the dynamic interplay between local Hungarian organizations international humanitarian donors and the child relief recipients In tracing transnational relief encounters Budapest's Children reveals how intertwined postwar internationalism and nationalism were and how child relief reinforced revisionist claims and global inequalities that still reverberate today

Women's Labour Activism in Eastern Europe and Beyond Selin Çağatay,Mátyás Erdélyi,Alexandra Ghiț ,Olga Gnydiuk,Veronika Helfert,Ivelina Masheva,Zhanna Popova,Jelena Tešija,Eszter Varsa,Susan Zimmermann,2025-08-26 This collaborative monograph presents a deeply researched inclusive history of women's labour activism in Eastern Europe Austria Turkey and transnationally It explores women's activism and organizing to improve the working conditions and living circumstances of lower income and working class women and their communities in the region and internationally Moving beyond the celebratory or partisan perspectives of many classical and some feminist labour histories Women's Labour Activism in Eastern Europe and Beyond provides a careful historicization of women's actions in a multiscalar perspective The authors follow women aligned with a wide range of political persuasions highlighting unexpected elements and continuities of women's labour activism Women's activities are seen in the workplace in the everyday within and across social movements and organizations and inside the state They are presented through a framing that spotlights long term developments and bridges the divide between the literatures on gendered labour politics and activism in state socialist and capitalist societies The authors examine activism unfolding in the region and the role of activists from the region within international women's labour and inter state organizations Moving women's labour activism from the margins of labour gender and European history to the centre of historical study the volume makes an innovative contribution to the new global histories of labour and gender

The French Revolution as a Moment of Respatialization Matthias Middell,Megan Maruschke,2019-09-23 The French Revolution has primarily been understood as a national event that also had a lasting impact in Europe and in the Atlantic world Recently historiography has increasingly emphasized how France's overseas colonies also influenced the contours of the French Revolution This volume examines the effects of both dimensions on the reorganization of spatial formats and spatial orders in France and in other societies It departs from the assumption that revolutions shatter not only the political and economic old regime order at home but in an increasingly interdependent world also result in processes of respatialization The French Revolution therefore is analysed as a key event in a global history that seeks to account for the shifting spatial organization of societies on a transregional scale

The Practice of Global History Matthias Middell,2019-08-22 Over recent decades almost every area of historical study has seen its global turn from consumption to finance from politics to migration from social order to cultural patterns This volume reflects the vibrant state of global history scholarship in Europe and examines to what extent global history is practiced and conceptualised distinctively within Europe Drawing together contributions from scholars from France Germany Hungary the Netherlands

Switzerland and the UK the book offers a sweeping overview of the state of the field In particular the contributors look at histories of colonialism and imperial expansion knowledge circulation and mobility across borders This book reflects the diversity of current scholarship on global and transnational history and will offer important insights for anyone interested in understanding the cutting edge of research in this area *Alternative Globalizations* James Mark,Artemy M.

Kalinovsky,Steffi Marung,2020-02-11 Globalization has become synonymous with the seemingly unfettered spread of capitalist multinationals but this focus on the West and western economies ignores the wide variety of globalizing projects that sprang up in the socialist world as a consequence of the end of the European empires This collection is the first to explore alternative forms of globalization across the socialist world during the Cold War Gathering the work of established and upcoming scholars of the Soviet Union Eastern Europe and China *Alternative Globalizations* addresses the new relationships and interconnections which emerged between a decolonizing world in the postwar period and an increasingly internationalist eastern bloc after the death of Stalin In many cases the legacies of these former globalizing impulses from the socialist world still exist today Divided into four sections the works gathered examine the economic political developmental and cultural aspects of this exchange In doing so the authors break new ground in exploring this understudied history of globalization and provide a multifaceted study of an increasing postwar interconnectedness across a socialist world

Globalizing East European Art Histories Beáta Hock,Anu Allas,2018-05-30 This edited collection reassesses East Central European art by offering transnational perspectives on its regional or national histories while also inserting the region into contemporary discussions of global issues Both in popular imagination and to some degree scholarly literature East Central Europe is persistently imagined as a hermetically isolated cultural landscape This book restores the diverse ways in which East Central European art has always been entangled with actors and institutions in the wider world The contributors engage with empirically anchored and theoretically argued case studies from historical periods representing notable junctures of globalization the early modern period the age of Empires the time of socialist rule and the global Cold War and the most recent decades of postsocialism understood as a global condition Globalizing Eastern Europe Gilad Ben-Nun,Katja Castryck-Naumann,Lena Dallywater,2025-08-21 For far too long views of Eastern Europe as a negligible and peripheral region have shaped popular perceptions of this part of the world Presenting new research *Globalizing Eastern Europe* Politics Culture and Economics from the 18th to the 21st Century offers refreshing arguments to counter such misconceptions Global politics and international law have been profoundly shaped by the experiences and expertise that emanated from this region Migration to and from Eastern Europe has fostered deep ties with neighbouring and distant societies as have this area s literature and music The importance of its agricultural development has reverberated in the global economy This volume recasts Eastern Europe as a global region It shows how people from this part of the world shaped the global and how in turn the global shaped them Authors from a range of disciplines chart century long traditions of

entanglements and contemporary interactions In doing so this book further enriches the perennial debates regarding this region's spatial boundaries

The Routledge Handbook of Transregional Studies Matthias Middell, 2018-11-08 The Routledge Handbook of Transregional Studies brings together the various fields within which transregional phenomena are scientifically observed and analysed This handbook presents the theoretical and methodological potential of such studies for the advancement of the conceptualization of global and area bound developments Following three decades of intense debate about globalization and transnationalism it has become clear that border crossing connections and interactions between societies are highly important yet not all extend beyond the borders of nation states or are of truly world wide reach The product of extensive international and interdisciplinary cooperation this handbook is divided into ten sections that introduce the wide variety of topics within transregional studies including Colonialism and Post Colonial Studies Spatial Formats International Organizations Religions and Religious Movements and Transregional Studies and Narratives of Globalization Recognizing that transregional studies asks about the space making and space formatting character of connections as well as the empirical status of such connections under the global condition the volume reaches beyond the typical confines of area and regional studies to consider how areas are transcended and transformed more widely Combining case studies with both theoretical and methodological considerations The Routledge Handbook of Transregional Studies provides the first overview of the currently flourishing field of transregional studies and is the ideal volume for students and scholars of this diverse subject and its related fields The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Globale Bildungsmobilität 1850-1930 Isabella Löhr, 2021-10-25 Studieren im Ausland humanitäre Krisen Solidarität und die Formierung eines globalen Handlungsfelds Studieren im Ausland ist heute scheinbar normal Die meisten Programme versehen dies dabei mit dem Auftrag internationale Verständigung zu fördern Isabella Löhr analysiert wie diese Verbindung von Bildungsmobilität und Verständigung im Verlauf des Ersten Weltkriegs entstand Die Europäische Studentenhilfe war eine aus der studentischen Missionsbewegung des 19. Jahrhunderts kommende humanitäre Organisation die ab 1920 in den Universitäten im stlichen Europa tätig wurde Sie verband Bildungsmobilität mit humanitärer Hilfe und transformierte studentische Mobilität in ein gesellschaftspolitisches Sujet das innerhalb weniger Jahre zu einem Gegenstand bildungspolitischer Interventionen auf globaler Ebene aufkam Die humanitäre Sorge für Studierende diente nach dem Krieg als Modell für eine Verständigungspolitik die ein Denken in Kategorien von Nation Minderheiten und Rasse/race als großes Problem der Zeit ansah und das Ideal einer globalen studentischen Gemeinschaft als Lösung propagierte Ein wesentliches Element der modernen Universitätsausbildung Mobilität für den Wissenserwerb wurde damit von religiösen und humanitären Handlungslogiken und Weltansichten geprägt

History as Performance Dietlind Hüchtker, 2020-09-06 This study analyzes history as performance as the interaction of actors plays stages and enactments By this it examines women's politics in

Habsburg Galicia around 1900 a Polish woman active in the peasant movement a Ukrainian feminist and a Jewish Zionist It shows how the movements constructed essentialistically regarded collective experience as a medially comprehensible form of credibility and a historically based inevitability of change and legitimized participation and intervention through social policy and educational practices Traits shared by the movements included the claim to interpretive sovereignty the ritualization of participation and the establishment of truths about past and future *Narrative und Darstellungsweisen der Globalgeschichte* Gabriele Lingelbach, 2022-01-19 Während sich Globalhistorikerinnen und Historiker bereits intensiv damit auseinandergesetzt haben welche Themen und Fragestellungen in ihrem Ansatz behandelt werden sowie welche Theorien und Methoden Anwendung finden sollten gibt es bislang nur wenige Überlegungen zu Darstellungsformen und Erzählweisen von globalgeschichtlichen Texten Diese Lücke möchte der vorliegende Band schließen Zum einen fragt er danach welche Meister und Metaerzählungen existieren und welche Kritik an diesen geübt wurde Zum anderen werden unterschiedliche Darstellungsweisen vorgestellt mit denen sich die Geschichte des Kolonialismus der Migrationen sowie des globalen Waren und Wissensaustauschs erzählen lassen Darüber hinaus werden exemplarisch einige häufig in globalgeschichtlichen Darstellungen zu findende Begriffe und Visualisierungen analysiert Im Mittelpunkt des Bandes steht die Frage welchen spezifischen narrativen Herausforderungen sich Globalhistorikerinnen und Historiker stellen müssen
