Lindeboom, 2012-12-06 I In some periods of the past Netherlands medicine has played a major role in the evolution of European medicine today its history still enjoys much interest even at the other side of the Ocean In this bibliography it has been my endeavour to compile references for all that has been written on the history of Dutch medicine in our country and elsewhere in our age The main concern of this work is with the medicine of the Northern Netherlands However before the end of the sixteenth century the Northern and Southern Netherlands were not yet divided into two separate countries they were still politically one and for the greater part spoke the same Flemish language So before their separation the present day Belgium and Netherlands also had a common medical history Therefore many entries have been included which bear on early and sometimes later Flemish medicine but it has not been the intention to strive for

gevolgen voor de manier waarop regionale identiteiten werden gevormd en beleefd. Vooral in tijden van crisis stond de regio onder druk. Het tijdperk van de Franse Revolutie en de Napoleontische oorlogen was zo'n crisistijd. In deze bundel staat dat tijdvak centraal. De bijdragen richten zich op regio's aan de randen van Nederland met een nadruk op het Gelders-Nederrijnse grensgebied. Ze behandelen uiteenlopende aspecten van identiteit en beeldvorming van vroegmoderne kranten en historiografie als dragers van identiteit tot aan de manier waarop individuen en groepen zich aanpasten. De grootste aandacht gaat daarbij uit naar de wijze waarop bestuurlijke en sociale elites zich positioneerden. De bundel sluit af met een bijdrage over de rol die regionale verbanden spelen bij partnerkeuze en huwelijksmigratie. Genealogical Journal, 1972
