Mapping Fairy-Tale Space Christy Williams,2021-04-27 Examines how popular fairy tales collapse narrative borders and reimagine the genre for the twenty first century *Mapping Fairy Tale Space* Pastiche and Metafiction in *Borderless Tales* by Christy Williams uses the metaphor of mapping to examine the narrative strategies employed in popular twenty first century fairy tales It analyzes the television shows *Once Upon a Time* and *Secret Garden* a Korean drama the young adult novel series *The Lunar Chronicles* the Indexing serial novels and three experimental short works of fiction by Kelly Link Some of these texts reconfigure well known fairy tales by combining individual tales into a single storyworld others self referentially turn to fairy tales for guidance These contemporary tales have at their center a crisis about the relevance and sustainability of fairy tales and Williams argues that they both engage the fairy tale as a relevant genre and remake it to create a new kind of fairy tale *Mapping Fairy Tale Space* is divided into two parts Part 1 analyzes fairy tale texts that collapse multiple distinct fairy tales so they inhabit the same storyworld transforming the fairy tale genre into a fictional geography of borderless tales Williams examines the complex narrative restructuring enabled by this form of mash up and expands postmodern arguments to suggest that fairy tale pastiche is a critical mode of retelling that celebrates the fairy tale genre while it critiques outdated ideological constructs Part 2 analyzes the metaphoric use of fairy tales as maps or guides for lived experience In these texts characters use fairy tales both to navigate and to circumvent their own situations but the tales are ineffectual maps until the characters chart different paths and endings for themselves or reject the tales as maps altogether Williams focuses on how inventive narrative and visual storytelling techniques enable metafictional commentary on fairy tales in the texts themselves *Mapping Fairy Tale Space* argues that in remaking the fairy tale genre these texts do not so much chart unexplored territory as they approach existing fairy tale space from new directions remapping the genre as our collective use of fairy tales changes Students and scholars of fairy tale and media studies will welcome this fresh approach

Couples Kate Figes,2010-01-21 These days many of us enjoy unrivalled freedom and equality when it comes to choosing and building a relationship Yet new myths about how to live and love compromise that happiness Kate Figes argues that whether married or cohabiting gay or straight remarried or a couple living apart the quality of our intimate relationship is fundamental to our long term health and happiness because our need for commitment and love hasn t changed This is not a handbook There are no easy Mars and Venus universal recipes for success because relationships are far too complicated individual and important for easy answers But learning how others sustain lifelong love and what really goes on in other people s lives can help us to understand our own partnerships and take responsibility for making them work Couples is an incisive and important look at how we can learn to make love endure **Deconstructing My Fairy Tale** Grace Carrington,2015-01-14 In 1999 author Grace Carrington was a college educated young single employed woman just

doing her thing in New York City And then she met the charming Mr LC a man ten years her senior In *Deconstructing My Fairy Tale* Carrington tells the story of how shea hotheaded Jersey girl despite many red flags pursued the all American dream with Mr LC In this memoir she shares her personal journey throughout a decade of her life It begins with a fairy tale illusion conceived in the mind and heart of a young emotionally out of control girl and ends with reality and restoration as a mature mother of two Carrington tells how she struggled to maintain her sanity when the fairy tale became a nightmare because of lying cheating infidelity money woes and her own secret love affair Told like a modern day Greek tragedy sprinkled with humor sass and emotional meltdowns *Deconstructing My Fairy Tale* shares how after losing everything Carrington found the faith to rebuild an authentic life becoming stronger and wiser in the process

500 Dates Mark Miller, 2015-02-03 Now several years post divorce relationship expert and humorist Mark Miller has experienced more than five hundred first dates In *500 Dates* composed of fifty five humor essays Miller features the highlights and lowlights of those dates Among the true dating tales and revelations you will find in this book are How Miller and his date learned the limitations of a man being too emotionally expressive Most guys consider revealing more about themselves emotionally and communicating on a deeper level nearly as enjoyable as falling face first onto an ice pick or spending the rest of eternity listening to Celine Dion music Miller s realization that sometimes men have to pay a heavy price for their dates previous relationship behavior At least six different times God has matched me up with a woman who has had a long history of wild impulsive passionate no holds barred sex She invariably finds something lacking in that lifestyle and decides to make a change Starting with the very next man she dates Who is invariably me Miller s misguided social experiment to separate dating from status by spending less than 20 on the date purchasing everything at a 99 store and what he learned as a result about his date and himself I realize now that on the journey of romance thrift and creativity will take you only so far for the rest of the trip you ll need MasterCard Revealed for the first time the inner workings of a man s brain Cerebellum Responsible for coordinating movement and maintaining balance Used primarily when a man has had eight beers and is endeavoring to make his way to the bathroom without tripping over the dog and pulling the fish tank over on top of them How Miller took his date to his ex wife s holiday party only to find his date and his ex wife bonding like high school girlfriends Pam would take Amy aside and present to her a list of all 273 of my failings most of which she confides to Amy won t become noticeable until month three of Amy s being with me Amy is stunned she d only been aware of 149 of my failings But *500 Dates* is about much more than dating Its humor essays also cover romance relationships breakups attraction the nature of love and how both men and women view the art science expectations and reality of courtship and turning courtship into something deeper and longer lasting in the twenty first century Throughout these essays a portion of which were previously published in various media Miller provides a sense of hope about one s romantic prospects Readers will find that the end of a marriage even a long term one does not mean the end of romance or one s sense of humor
