captures the harsh reality of their environment Dazzling San Francisco Chronicle Campus Misinformation Bradford Vivian,2023 In Campus Misinformation Bradford Vivian shows how misinformation about colleges and universities has proliferated in recent years with potentially dangerous results Popular but highly misleading narratives about the state of free speech and intellectual diversity on college campuses impede constructive deliberation about higher education while promoting suspect ideas about First Amendment freedoms and democratic participation A powerful demonstration of how disingenuous information can become accepted as fact this book should matter to anyone concerned about the state of higher education and our democracy alike **Woman President** Kristina Horn Sheeler,Karrin Vasby Anderson,2013-08-08 What elements of American political and rhetorical culture block the imagining and thus the electing of a woman as president Examining both major party and third party campaigns by women including the 2008 campaigns of Hillary Clinton and Sarah Palin the authors of Woman President Confronting Postfeminist Political Culture identify the factors that limit electoral possibilities for women Pundits have been predicting women s political ascendancy for years And yet although the 2008 presidential campaign featured Hillary Clinton as an early frontrunner for the Democratic presidential nomination and Sarah Palin as the first female Republican vice presidential nominee no woman has yet held either of the top two offices The reasons for this are complex and varied but the authors assert that the question certainly encompasses more than the shortcomings of women candidates or the demands of the particular political moment Instead the authors identify a pernicious backlash against women presidential candidates one that is expressed in both political and popular culture In Woman President Confronting Postfeminist Political Culture Kristina Horn Sheeler and Karrin Vasby Anderson provide a discussion of US presidentiality as a unique rhetorical role Within that framework they review women s historical and contemporary presidential bids placing special emphasis on the 2008 campaign They also consider how presidentiality is framed in candidate oratory campaign journalism film and television digital media and political parody Public Policy in Democratic Backsliding Michelle Morais de Sá e Silva,Alexandre de Ávila Gomide,2024-11-25 This book examines the impact of democratic backsliding and populist governments on the public policy process Drawing on case studies from the USA Brazil Hungary Mexico Poland Turkey and the Philippines it assesses how elected populist governments have eroded policy capabilities and dismantled state apparatuses responsible for making and implementing policy The book offers a unique perspective into democratic backsliding through a public policy lens and considers why when and how policy processes change as a result of populist governments Numerous policy issues are analysed throughout the volume including environmental health and economic policies It will appeal to all those interested in public policy democracy studies and public administration *The Backsliders* Susan C. Stokes,2025-09-09 Why democracy is under assault across the globe by the leaders entrusted to preserve it Democracies around the world are getting swept up in a wave of democratic erosion Since the beginning of the twenty first century two dozen presidents and prime ministers have attacked their countries

democratic institutions violating political norms aggrandizing their own powers and often trying to overstay their terms in office The Backsliders offers the first general explanation for this wave Drawing on a wealth of original research Susan Stokes shows that increasing income inequality a legacy of late twentieth century globalization left some countries especially at risk of backsliding toward autocracy Left behind voters were drawn to right wing ethnonationalist leaders in countries like the United States India and Brazil and to left wing populist ones in countries like Venezuela Mexico and South Africa Unlike military leaders who abruptly kill democracies in coups elected leaders who erode them gradually must maintain some level of public support They do so by encouraging polarization among citizens and also by trash talking their democracies claiming that the institutions they attack are corrupt and incompetent They tell voters that these institutions should be torn down and replaced by ones under the executive s control The Backsliders describes how journalists judges NGOs and opposition leaders can put the brakes on democratic erosion and how voters can do so through political engagement and the power of the ballot box

Representing Women Beth Reingold, 2003-07-11 Women in public office are often assumed to make a difference for women as women in other words to represent their female constituents better than do their male counterparts But is sex really an accurate predictor of a legislator s political choices and actions In this book Beth Reingold compares the representational activities and attitudes of male and female members of the Arizona and California state legislatures to illuminate the broader implications of the election and integration of women into public office In the process she challenges many of the assumptions that underlie popular expectations of women and men in politics Using in depth interviews survey responses and legislative records Reingold actually uncovers more similarities between female and male politicians than differences Moreover the stories she presents strongly suggest that rather than assuming that who our representatives are determines what they will do in office we must acknowledge the possibility that the influence of gender on legislative behavior can be weakened distorted or accentuated by powerful forces within the social and political contexts of elective office
