Hawaiian Modern The Architecture Of Vladimir Ossipoff:

Hawaiian Modern Vladimir Ossipoff, Marc Treib, 2007-01-01 At the forefront of the postwar phenomenon known as tropical modernism Vladimir Ossipoff 1907 1998 won recognition as the master of Hawaiian architecture Although he practiced at a time of rapid growth and social change in Hawaii Ossipoff criticized large scale development and advocated environmentally sensitive designs developing a distinctive form of architecture appropriate to the lush topography light and microclimates of the Hawaiian islands This book is the first to focus on Ossipoff's career presenting significant new material on the architect and situating him within the tropical modernist movement and the cultural context of the Pacific region The authors discuss how Ossipoff synthesized Eastern and Western influences including Japanese building techniques and modern architectural principles In particular they demonstrate that he drew inspiration from the interplay of indoor and outdoor space as advocated by such architects as Frank Lloyd Wright applying these to the concerns and vernacular traditions of the tropics The result was a vibrant and glamorous architectural style captured vividly in archival images and new photography As the corporate projects and private residences that Ossipoff created for such clients as IBM Punahou School Linus Pauling Jr and Clare Boothe Luce surpass their fiftieth anniversaries critical assessment of these structures offered here by distinguished scholars in the field will illuminate Ossipoff's contribution to the universal challenge of making architecture that is delightfully particular to its place and durable over time *Hawaiian Modern* Dean Sakamoto, Karla Britton, Vladimir Ossipoff, Honolulu Academy of Arts, Deutsches Architekturmuseum (Frankfurt, Main), 2009 **Hawaiian Modern** Vladimir Ossipoff, Honolulu Academy of Arts. Gateway State Sarah Miller-Davenport,2019-04-09 How Hawai i became an emblem of multiculturalism during its journey to statehood in the mid twentieth century Gateway State explores the development of Hawai i as a model for liberal multiculturalism and a tool of American global power in the era of decolonization The establishment of Hawai i statehood in 1959 was a watershed moment not only in the ways Americans defined their nation s role on the international stage but also in the ways they understood the problems of social difference at home Hawai i s remarkable transition from territory to state heralded the emergence of postwar multiculturalism which was a response both to independence movements abroad and to the limits of civil rights in the United States Once a racially problematic overseas colony by the 1960s Hawai i had come to symbolize John F Kennedy s New Frontier This was a more inclusive idea of who counted as American at home and what areas of the world were considered to be within the U S sphere of influence Statehood advocates argued that Hawai i and its majority Asian population could serve as a bridge to Cold War Asia and as a global showcase of American democracy and racial harmony In the aftermath of statehood business leaders and policymakers worked to institutionalize and sell this ideal by capitalizing on Hawai i s diversity Asian Americans in Hawai i never lost a perceived connection to Asia Instead their ethnic difference became a marketable resource to help other Americans navigate a decolonizing world As excitement over statehood dimmed the utopian vision of Hawai i fell apart revealing how racial inequality and U S imperialism continued to shape the fiftieth state and igniting a backlash against the islands white dominated institutions

photographer and writer Russell Abraham Rural Modern presents a tantalising selection of modern country houses in a variety of styles and forms The 21st century has seen rural residential architecture take ideas from both the Modern Bauhaus design movement and the ever popular Shingle Style The result is a style that borrows from vernacular forms and materials but uses them in new ways Issues of sustainability and energy conservation are also key to contemporary country house design Orienting windows to capture heat in winter but protect the house from the sun in summer is an ongoing design objective The modern country house is a hybrid of several ingenious ideas blended together to create a modern sustainable and highly liveable architecture that respects the past and looks forward into the future *Humanities* ,2006 Maynard
