BP Tankers William John Harvey,Raymond Solly,2005 This massive new reference work is the first comprehensive authoritative and detailed fleet history of one of the world s major international oil transportation companies It is lavishly illustrated with over 500 photographs and supported by an army of documents relevant to specific tankers The book begins with a brief group history and includes a chronology describing fleet developments from the early purchase of second hand tonnage with the formation of the company The first BP owned oil tanker was the British Emperor acquired in 1916 and the story continues to the rise of the giant behemoths of the 1990s and the new builds at the start of this century The book s core is the fleet list which includes specifications and histories of every ship owned by the British Tanker Company and BP Shipping and all their associates It includes subsidiary craft such as tugs barges and support ships and more than 1 000 vessels are examined in detail There are photographs of every class of vessel along with plans showing stowage

arrangements This book is a marathon achievement and befits a company that has carried oil from every corner of the globe It will prove to be an essential reference work for maritime researchers professionals in oil companies and all the supporting industries and ship enthusiasts around the world Master's Handbook on Ship's Business Tamara C. Burbach,2021-07-27

An invaluable aid to masters of ships for more than 30 years Since the initial publication of the third edition in 2001 many substantive changes have occurred in both the legal and operational environments affecting seagoing vessels and their crews In response to these changes this book has been completely updated and been renamed to include masters on all seagoing vessels including oceangoing tugs A complete guide for the newly appointed master it is also useful to experienced masters as a checklist for the voluminous paperwork required in all phases of business aboard including shipping articles vessel documents and certificates crew lists customs and immigration requirements accounting procedures bills of lading charter parties vessel accidents and logbooks The master of a vessel is required to comply with state and federal laws that apply to

the vessel and crew the laws of foreign countries when the vessel is in their waters and applicable international law Mastering the details of these various jurisdictions can be intimidating but this handbook demystifies the regulations and states the requirements in plain language New topics in the fourth edition include vessel security communications and flag etiquette Useful appendixes give details on various agencies and contact personnel acronyms and definitions and medical evacuation and travelers insurance companies

chapter 10 fans - Oct 21 2022

web in this chapter we shall define fan pressures and examine some of the basic theory of fan design the results of combining fans in series and parallel configurations the theory of fan testing and booster fan installations 10 2 fan pressures a matter that has often led to confusion is the way in which fan pressures are defined in section

design of 5 kw radial type centrifugal blower impeller ire - Aug 19 2022

web in this research paper is attempted to design a single stage radial type centrifugal blower for used in required industrial area in this thesis the bower is designed to provide low volume high pressure air for cooling ventilating and exhaust system that handle dust materials or corrosive fumes

effect of blade number on the performance of centrifugal fan - Feb 10 2022

web jan 1 2023 simulation of centrifugal fan is demonstrated by considering a preliminary design model of backward curved bladed impeller centrifugal having 11 blades md1 which is designed using theoretical concepts from fan handbooks to achieve an air capacity of 7 m³ s producing a total pressure at outlet of fan to be 2000 pa while impeller running at
