ISIS Exposed Erick Stakelbeck, 2015-03-09 The terror masters of ISIS are determined to get America's attention They ve humiliated the Iraqi Army we trained and seized territory in Iraq that we had secured at the cost of so many American lives They we beheaded American journalists on camera in a direct challenge to the power and resolve of the United States And now ISIS is calling for city wolves across the United States to act on their dedication to the Islamic State's blood drenched ideology and murder innocent American citizens at random Who is ISIS Where did it come from and what is driving its successful campaign of murder and conquest Our government and our media alike seemed to be blindsided by the Islamic State's blitzkrieg like advance which forced American troops back into Iraq ISIS has conquered a territory roughly the size of the state of Indiana rules over eight million terrorized souls and has even revived the practice of legal slavery And yet the true motivations inner workings and future plans of this terror state and its mysterious caliph seem almost as obscure as when ISIS first burst onto the world scene In ISIS Exposed veteran investigative reporter Erick Stakelbeck gets inside the story of the new caliphate and reveals just how clear and present a threat it is ISIS Exposed Erick Stakelbeck, 2015-03-09 The terror masters of ISIS are determined to get Horror Francois Debrix, 2016-12-19 Global Powers of Horror examines clear and present a threat it is contemporary regimes of horror into horror s intricacies and into their deployment on and through human bodies and body parts To track horror s work what horror decomposes and perhaps recomposes Debrix goes beyond the idea of the integrality and integrity of the human body and it brings the focus on parts pieces or fragments of bodies and lives Looking at horror s production of bodily fragments both against and beyond humanity the book is also about horror s own attempt at re forming or re creating matter from the perspective of post human non human and inhuman fragmentation Through several contemporary instances of dismantling of human bodies and pulverization of body parts this book makes several interrelated theoretical contributions It works with contemporary post geo political figures of horror faces of concentration camp dwellers body parts of victims of terror attacks the outcome of suicide bombings graphic reports of beheadings re compositions of melted and mingled remnants of non human and human matter after 9 11 to challenge regimes of terror and security that seek to forcefully and ideologically reaffirm a biopolitics and than atopolitics of human life in order to anchor today s often devastating deployments of the metaphysics of substance Critically enabling one to see how security and terror form a geo political continuum of violent mobilization utilization and often destruction of human and non human bodies and lives this book will be of interest to
