Islam And Dhimmitude Where Civilizations Collide:

Islam and Dhimmitude Bat Ye'or, 2002 Dhimmitude is thus discussed from the perspective of Muslim theory and also in regard to divergent Christian attitudes to Jews and Zionism BOOK JACKET Gareth Wilson, 2010-07 Religion is a duplicitous invention of primitive humans diametrically opposed to our moral intuition and driven by belief in gods whose existence is neither evident nor probable These are just some of the damning conclusions reached by Gareth Wilson within his pulsating assessment of organised faith Sweeping aside the punditry of religious apologists and their critique of previous atheist works The Plain Truths of Religion is the most extensive and full blooded summation of both the nature and purpose of humankind's greatest belief systems As such this piece is as raw as it is incisive and certainly not a read for the faint hearted Europe, Globalization, and the Coming of the Universal Caliphate Bat Ye'or, 2011-07-27 Europe Globalization and the Coming Universal Caliphate analyzes the modern political trends and strategies that are leading to major changes in Western civilization America included since the OIC strategy targets America also Learning from the European experience is crucial for Americans Moreover this evolution is inscribed in the historical movement of Islamic theology and expansionism It is not fortuitous but it has its own theological and political structure that must be known in the West if we wish to live in a peaceful world **From Muhammad to Bin Laden** David Bukay, 2017-07-28 From Muhammad to Bin Laden analyzes the ideological religious and cultural foundations of one of the most inconceivable phenomena in contemporary world politics Bukay analyzes the homicide bombings and atrocities perpetuated by worldwide jihad He also uses information from primary sources to suggest how to cope with this lethal phenomenon The book explores the meaning and interpretation of the seemingly benign concept of da wah the expansion of the Islamic community Da wah provides the religious and ideological justification for the lethal phenomenon of worldwide jihad it describes the incentive and motivational drive that support the emergence and the operation of the fundamentalist Islamic movement Bukay locates the dimensions of the phenomenon of jihad as well as the reasons motivations and aspects of the behavior of fundamentalist groups The importance of this work lies in its skillful combination of historical perspectives and contemporary dynamics religious and anthropological aspects of the phenomena and its use of research tools of both the humanities and social sciences By exploring the religious and cultural foundations of homicide bombers activities Bukay explains the essence of jihad how it is connected to the da wah and together how da wah and jihad serve as the platform of the current worldwide terrorist activities Bukay quotes religious edicts and declarations of classical and modern Islamic texts as well as contemporary Islamic fanatic movements from Ibn Hanbal in the eighth century to Sayyid Qutb in the mid twentieth century He also aims to bring to the world's consciousness the aims and objectives of fundamentalist Islam The volume concludes by challenging the free world to wake up before the bells of another world war start to ring From Muhammad to Bin Laden will interest scholars policymakers and lay readers Its importance is transparent particularly in light of the current developments in the Middle East Eurabia-cloth Bat

The Muslim Discovery of America Frederick William Dame, 2013 Some so called authorities claim that Muslims came to America hundreds of years before Columbus arrived in the New World Are the claims true Columbus expedition represents the first major discovery of the Americas and the first appearance of non Native Americans The conventional wisdom is that Columbus ended tens of thousands of years of near total isolation for the Native Americans Since the Americas had been initially populated probably between 13 000 BC and 11 000 BC there had been no engagement with peoples from any other continent save small ventures by the Norse into Northeastern Canada Did Muslims come to the Americas possibly as early as the 700s These researchers argue that Muslims came from Islamic Spain particularly the port of Delba Pelos during the rule of Caliph Abdullah Ibn Mohammed 888 912 A Muslim historian Abul

Hassan Al Masudi c 895 957 added a map of the world to his book one that contained a large area in the ocean of darkness and fog the Atlantic ocean which he referred to as the unknown territory the Americas This book demonstrates that this assertion is important for Muslims because in conjunction with the relevant verses from the Koran and quotes from Mohammed it establishes the claim of Muslims that Allah intended America to be Islamic The book also investigates the lives of selected Muslims in America and organizations from the eighteenth century into the twenty first century It reveals that there was nothing more than a continuation of typical Islamic deception and subversive jihad It also documents the lie of the Islamic claim that hundreds of place names in the United States of America and Canada derive from Arabic Islamic roots Finally the book exposes the rewriting of American history by Islamic and pro Islamic media This book is alarming informative interesting and true

Defending the Gospel in Legal Style John Warwick Montgomery,2017-10-25 Traditional apologetics is either focused on obscure quasi Thomist philosophical arguments for God s existence or on 18th century style answers to alleged biblical contradictions But a new approach has recently entered the picture the juridical defence of historic Christian faith with its particular concern for demonstrating Jesus s deity and saving work for humankind The undisputed leader of this movement is John Warwick Montgomery emeritus professor of law and humanities University of Bedfordshire England and director International Academy of Apologetics Evangelism and Human Rights Strasbourg France His latest book of more than sixty published during his career shows the strength of legal apologetics its arguments drawn from secular legal reasoning can be rejected

only at the cost of jettisoning the legal system itself on which every civilised society depends for its very existence The present work also includes theological essays on vital topics of the day characterised by the author's well known humour and skill for lucid communication

Muslim Attitudes to Jews and Israel Moshe Ma'oz, 2011-11-02 Manifestations of hatred of Jews and Israel have risen over the last few decades in the Arab and Muslim world But is such hatred the result of Islamic anti-Semitism This title explains that while anti-Semitism is the credo of fanatic groups and regimes such an attitude is not representative of traditional and contemporary Islam

Heaven on Earth Richard Landes, 2011-08-04 A comprehensive examination of millennialism the belief that the grandest events of history and the cosmos will occur soon and suddenly whether as a religious development with the coming of the Last Days or as a final social solution to resolve the human predicament forever Through analysis of diverse cases throughout history Richard Landes demonstrates that millennialism has been deliberately downplayed and even ignored by historians and shows that millenarian beliefs have played a role in many supposedly secular events movements and periods including modernity

A Brief History of the Middle East Christopher Catherwood, 2011-02-24 Western civilization began in the Middle East Judaism and Christianity as well as Islam were born there For over a millennium the Islamic empires were ahead of the West in learning technology and medicine and were

militarily far more powerful It took another three hundred centuries for the West to catch up and overtake the Middle East Why does it seem different now Why does Osama bin Laden see 1918 with the fall of the Ottoman Empire as the year everything changed These issues are explained in historical detail here in a way that deliberately seeks to go behind the rhetoric to the roots of present conflicts A Brief History of the Middle East is essential reading for an intelligent reader wanting to understand what one of the world s key regions is all about Fully updated with a new section on the Iraq Invasion of 2003 the question of Iran and the full context of the Israeli Palestine conflict
