Islam Beliefs And Teachings:

Islam Beliefs and Teachings Ghulam Sarwar, 2000 Islamic Beliefs and Practices Britannica Educational Publishing, 2009-10-01 Islam is the second most followed religion on Earth with more than one billion practicing Muslims around the globe However few Westerners fully understand the beliefs of the religion nor the cultural practices that accompany it This book explores Islam from the prophet Mohammad to the Five Pillars of Islam which includes the most important rituals of the faith including fasting at Ramadan and hajj the pilgrimage to the holy city of Mecca Islam Ghulam Sarwar, 1989 *Islam* Gulam Sarwer, 1993-01-01 *Islamic Beliefs, Practices, and Cultures*, 2011-01-15 Introduces the ideas promoted by Islam's founder in the seventh century and tracking their development into new doctrines schools of thought and philosophical literary and cultural traditions as diverse as recitation of scripture in madrasahs in Egypt *The Spirituality of Shi'i Islam* Mohammad Ali Amir-Moezzi, 2011-01-31 The second largest branch of Islam with between 130 and 190 million adherents across the globe Shi'i Islam is becoming an increasingly significant force in contemporary politics especially in the Middle East This makes an informed understanding of its fundamental spiritual beliefs and practices both necessary and timely Mohammad Ali Amir Moezzi is one of the most distinguished scholars of Shi'i history and theology and in this volume he offers a wide ranging and engaging survey of the core texts of Shi'i Islam Examining in turn the origins and later developments of Shi'i spirituality the author reveals the profoundly esoteric nature of the beliefs which accrued to the figures of the early Imams and which became associated with their interaction between the material and spiritual worlds Many of these beliefs have remained much misunderstood even within the wider Muslim world Furthermore Western scholarship has tended to follow the lead of the earlier orientalist and critics viewing Shi'i teachings as marginal In this study the author shows by contrast how central and creative the very nature of spirituality was to the development of Shi'i Islam as well as to classical Muslim civilisation as a whole In this comprehensive treatment the esoteric nature of Shi'i spirituality emerges as an essential phenomenon for understanding Shi'i Islam ISLAM THE ABSOLUTE TRUTH Jameel Kermalli, 2008 This book is a scientific work relating to the Concept of Energy in The Universe its Intelligence and how Islamic beliefs and practices accord totally with known scientific and modern discoveries **Islam** A.S.
