Cirpit Review. Monographs n. 3 - 2016 Aa. Vv., 2016-06-21 T00:00:00+02:00 This book is a tribute to Scott Thomas Eastham from his family former students and colleagues at Massey University in Palmerston North New Zealand where he lectured in the department of English and Media Studies for 19 years

Desert Islands and the Liquid Modern Barney Samson, 2020-11-21 This book investigates desert islands in postwar anglophone popular culture exploring representations in radio print and screen advertising magazine cartoons cinema video games and comedy drama and reality television Drawing on Zygmunt Bauman's theory of liquid modernity desert island texts are analysed in terms of their intersections with repressive and seductive mechanisms of power Chapters focus on the desert island as a conflictually incoherent space that characterises identity as deferred and structured by choice a location whose remoteness undermines satirical critiques of communal identity formation a site whose ambivalent relationship with home and Otherness destabilises patriarchal Western subjectivity a space bound up with mobility and instantaneity and an expression of radical individuality and underdetermined identity The desert island in popular culture is shown to reflect endorse and critique a profoundly consumerist society that seduces us with promises of coherence with the threat of repression looming if we do not conform

Aleutian World War II National Historic Area Calendar Compendium Francis Broderick, 2017 Beginning in 2006

the Aleutian World War II National Historic Area has produced calendars with each month focused on an illustrated history related to the program's interpretative themes. Each year the calendars interweave and build upon the two main themes of the national historic area: the Aleutian military campaign and the Unangax Aleut experience of World War II. The calendar stories also reflected the program's focus on the natural environment as well as historic preservation both in reference to Unangax culture and history and to the military campaign. The calendars also explored previously unknown sides of World War II Aleutian experience including primary research on the personal histories of soldiers and civilians in the Aleutian Islands. This calendar compendium draws from a wide range of histories from the 2011 through 2016 calendars.

The Chronicles of Sekhmet on Olmecra Book 2 indigo ptah, 2022-09-21 In the Ancient Lands of Kemet Goddess Sekhmet is a Legendary Lioness Woman. In the chronicles the famous lioness woman NTR is tasked with raising the vibrational energies of humans on a specific part of Earth called Olmecra. And unless there is an elevation in vibrations Earth will not ascend with the other planets in its galaxy. The Matriarchy of the Kemetic Pantheon and Cosmic Goddesses are the protagonist of the book displaying their best nurturing attributes. The story is being told from a divine feminine perspective in a way Goddess Sekhmet is not traditionally typified. For those who study the Ancient Egyptians and or Kemet metaphors will develop into myth. And for those who are new to the subject matter the interaction of the immortals with humans will encourage readers to seek what is seeking them. This novella is unique in that few stories are dedicated to the African Cosmic Pantheon as compared to books popularized by Greek and Roman mythology. Book Two is the second of a series of seven novellas that chronicle how the Goddess Sekhmet assists humans to help Earth ascend. In Book One three

exceptionally conscious women face individual crisis situations And to the surprise of themselves and their community they gain the gift to transform into a lioness woman to balance out their circumstances Another exceptional woman takes their signal to begin a new purpose quest to assist with Earth s ascension The main antagonist status quo of patriarchy in the form of selfish systematic supremacy attempts to progress its parasitic programming practices by spreading fear and eating away at natural energy resources on the planet and beyond But the forces of nature get more involved in Earth s evolution As an exceptional man embraces his animal spirit to provide and protect the path of the lioness women Book Two continues the chronicles in Book One with immortal conversations and early background on how and why Olmecra was formed The stories may seem controversial to some but are non confrontational And the story lines are never meant to make accusation of anyone or any group of people But rather what is emphasized is the misuse of spirituality and the decline of the human condition As the author evolves the chronicles she hopes the concept of Personal Agency is encouraged so the reader expands their thoughts on their individual journey and how their purpose fits in the Universe

Case Studies in Biocultural Diversity from Southeast Asia F. Merlin Franco,Magne Knudsen,Noor Hasharina Hassan,2022-07-27 This open access book demonstrates the linkages between local languages traditional knowledge and biodiversity at the landscape level in Asia providing a fresh approach to discussions on Asia s biocultural diversity The book carries forward earlier analyses but importantly focuses on traditional ecological calendars folk medicine and folk names in the context of the vital importance of maintaining biological cultural and linguistic diversity It does this by addressing a range of cases and issues in relation to Southeast Asia Brunei Darussalam Indonesia Malaysia the Philippines and North East India The several chapters demonstrate the ways in which the various forms of knowledge of the environment and its categorizations are important in areas such as landscape and resource management and conservation They also demonstrate that environmental knowledge and the practical skills which accompany it are not necessarily widely shared This book sends important messages to those who care about the sustainability of our environment the maintenance of its biocultural diversity or at least the maintenance of what remains of it because much has changed This interdisciplinary collection draws from a wide range of disciplines and is of appeal to students and scholars in anthropology environmental studies geography biodiversity and linguistics
