history This includes debates concerning the nature of the Mughal empire's efforts toward administrative centralization and subsequent imperial decline the role and impact of commercialization and trade and the social import of religious traditions The present study offers an innovative explanation of the relationship between devotional religious movements and the commercial economy in the Mughal empire My central contention is that the nature of the expansion of a market economy and the response of the state to this growth can be better understood through an examination of documents related to the burgeoning devotional groups of the period In this work I demonstrate how documents which have been traditionally primarily valued for what they reveal about religious life can be used to shed light on political and economic history as well Devotional religious traditions played a central but often overlooked role in the development of the market in struggles over group status and identity and in processes of political representation during the period of Mughal rule Devotional movements openly challenged the hegemony of the hierarchical caste system attacking its restrictions on interaction between people of different social backgrounds a necessary prerequisite for the expansion of a market economy These movements also helped establish links between merchants living in geographically dispersed areas Devotional movements became in a period of rapid commercialization and social flux popular associations that both promoted and responded to the position of upwardly mobile groups from a variety of religious backgrounds In doing so these movements embodied an emergent collective identity one marked by religious inclusivism and opposition to the caste system The leaders of these groups also served as the representatives through whom followers sought to convey their interests to the imperial establishment In their interactions with Mughal officials such leaders also mediated the exercise of imperial sovereignty to their devotees while simultaneously representing the devotional group's loyalty to the empire
