Isolated In Silk Alone Together:

Sufi Lovers, Safavid Silks and Early Modern Identity Nazanin Hedayat Munroe, 2025-10-01 This book examines a group of sixteenth and seventeenth century figural silks depicting legendary lovers from the Khamsa Quintet of epic Persian poetry Codified by Nizami Ganjavi in the twelfth century the Khamsa gained popularity in the Persian speaking realm through illustrated manuscripts produced for the elite creating a template for illustrating climactic scenes in the love stories of Layla and Majnun and Khusrau and Shirin that appear on early modern silks Attributed to Safavid Iran the publication proposes that dress fashioned from these silks represented Sufi ideals based on the characters Migration of weavers between Safavid and Mughal courts resulted in producing goods for a sophisticated and educated elite demonstrating shared cultural values and potential reattribution Through an examination of primary source materials literary analysis of the original text and close iconographical study of figural designs the study presents original cross disciplinary arguments about patronage provenance and the socio cultural significance of wearing these silks
