to should and must which are of different syntactic and semantic origins ought to stems from a main verb of Old English gan to have POSSESSION along with to should derives from sculan must with its deviation to shall and m tan originates in to be allowed to PERMISSION The work concentrates on the transition from Old English 700 1100 to Middle English 1100 1500 which is a crucial period in the history of the English language Topics addressed include the linguistic review of modality the philological reading of primary texts and the occasional reference to the other Germanic languages

**New Methods in Historical Corpora** Paul Durrell, Martin Scheible, Silke Whitt, Richard J. Bennett, 2013-09-22 Investigating the history of a language depends on fragmentary sources but electronic corpora offer the possibility of alleviating the problem of bad data But they cannot overcome it totally and questions arise of the optimal architecture for a corpus and its representativeness of actual language use and how a historical corpus can best be annotated to maximize its usefulness Immense strides have been made in recent years in addressing these questions with exciting new methods and technological advances The papers in this volume which were presented at a conference on New Methods in Historical Corpora Manchester 2011 exemplify the wide range of these recent developments
