Mastering VBA for Microsoft Office 2016 Richard Mansfield, 2016-02-23 Enhance productivity in any Office application with zero programming experience Mastering VBA for Microsoft Office 2016 helps you extend the capabilities of the entire Office suite using Visual Basic for Applications VBA Even if you have no

programming experience you'll be automating routine computing processes quickly using the simple yet powerful VBA programming language. Clear systematic tutorials walk beginners through the basics while intermediate and advanced content guides more experienced users toward efficient solutions. This comprehensive guide starts at the beginning to get you acquainted with VBA so you can start recording macros right away. You'll then build upon that foundation to utilize the full capabilities of the language as you use loops and functions, message boxes, input boxes, and dialog boxes to design your own Office automation program. Add-ins, embedded macros, content controls, and more give you advanced tools to enhance productivity, and all instruction is backed by real-world practice projects in Word, Excel, Outlook, and PowerPoint. Productivity is the name of the game, and automating certain computing tasks is an easy solution with significant impact for any business. This book shows you how with step-by-step guidance and expert insight. Expand Office 2016 functionality with macros. Learn how to work with VBA and the entire Office suite. Create effective code even with no programming experience. Understand ActiveX, XML-based files, the developer tab, and more. VBA is designed to be understandable and accessible to beginners but powerful enough to create specialized business applications. If you're ready to begin exploring the possibilities, Mastering VBA for Microsoft Office 2016 gets you started right away. Teach the course YOU want in LESS TIME. In today's fast-moving mobile environment, the GO with Office 2016 series focuses on the job skills needed to succeed in the workforce. With job-related projects that put Microsoft Office into context, students learn the how and why at the moment they need to know, all in the appropriate Microsoft procedural syntax. For Office 2016, the hallmark guided practice to skill mastery pathway is better than ever. Students have many opportunities to work live in Microsoft Office to apply the skills they've learned. In addition, instructional projects are now available as grader projects in MyITLab, so students can work live in Office while receiving auto-graded feedback. These high-fidelity simulations match the text and provide an effective pathway for learning, practicing, and assessing their abilities. After completing the instructional projects, students can apply their skills with a variety of progressively challenging projects that require them to solve problems, think critically, and create on their own. New GO Collaborate with Google projects allow students to apply their skills to a new environment that is already popular in many workplaces. Integrated Microsoft Office Specialist (MOS) objectives make GO your one resource for learning Office, gaining critical productivity skills, and prepare for MOS certification. MyITLab: MyITLab is an online homework, tutorial, and assessment program designed for Information Technology (IT) courses to engage students and improve results. HTML5 Simulation exercises and Live in Application Grader projects come with the convenience of auto-grading and instant feedback.
