

# Goal Setting Part 3: Set Some Goals!

When I'm older, I really want to be a:

**Doctor**

This is a long-term goal because it is far far into the future.

|                                                                   |                                                                                                                                              |
|-------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Why do I want to achieve this goal?<br>Why is it important to me? | Why do I want to achieve this goal?<br>because I want other people and it is kind this job is important to me because I want to help people. |
|-------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|

If I want to achieve this long-term goal, I have to achieve smaller short-term goals that come first.

|                                           |               |                              |
|-------------------------------------------|---------------|------------------------------|
| Learn about bones and all about medicine. | Go to college | not to get easily distracted |
|-------------------------------------------|---------------|------------------------------|

To achieve these goals, I need to make a plan. These are the steps I need to take for each goal.

|                                                                                                                                                             |                                                                                                                                 |                                                                                                                                             |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Watch TV about bones<br>2. Ask people that know about all about medicine.<br>3. Ask teachers and if possible books and medicine and figure out my bones. | 1. Improve my grades<br>2. Study hard about every subject<br>3. Go to middle school and high school and go to the best college. | 1. When my brother gets hurt try to help him<br>2. |-------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|

Visualize yourself taking these steps (visualize means to imagine a picture of it in your head). Pick 4 of the steps you're going to take and draw them here.

|                                                                                     |                                                                                      |
|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
|  |   |
|  |  |

Achieving your goals might be hard. There might be obstacles (things that get in my way), but you won't let them stop you.

| Obstacle                                                        | How You Can Tackle It |

| 1. My parents not have in enough money to let me go to college. | Help them get money.  |
| 2.                                                              |                       |
