## God 2nd Edn Hackett Readings In Philosophy:

*God* Timothy A. Robinson, 2002-01-01 Including over one hundred fifty pages of new material a new introduction enhanced headnotes and an updated list of further readings this significantly expanded anthology provides a rich selection of traditional and modern works that reflect the many ways in which philosophers have attempted to address the question of the existence of God

*Philosophy for AS and A2* Elizabeth Burns, Stephen Law, 2004 Philosophy for AS and A2 is the definitive textbook for students of Advanced Subsidiary or Advanced Level courses The book is structured directly around the AQA specification devoting a chapter each to the six themes covered by the syllabus

Christian Philosophy A-Z Daniel Hill, 2006-07-21 A handy guide to the major figures and issues in Christian philosophy from Augustine to the present This volume covers a broad historical sweep and takes into account those non Christian philosophers that have had a great impact on the Christian tradition However it concentrates on the issues that perplex Christian philosophers as they seek to think through their faith in a philosophical way and their philosophical beliefs in the light of their faith Examples of the topics discussed are the question of whether and how God knows the future whether we actually know that God exists and what Athens has to do with Jerusalem The leaders of the recent revival of Christian analytic philosophy especially Alvin Plantinga Nicholas Wolterstorff William Alston and Robert Adams are also included

*God* W. Jay Wood, 2014-12-05 This book explores two foundational questions about God are there adequate reasons to think that God exists and if God exists what is God like The first and main question of the book takes up epistemological concerns focusing on arguments for and against the claim that theism is rationally justifiable Metaphysical questions about God's nature in particular God's knowledge and power comprise the second part of the volume These two questions are related since if the concept of a God perfect in wisdom power and goodness is incoherent it cannot be reasonable to believe that God exists By exploring these foundational questions about God readers will be able and I hope eager to tackle more specialized and complex questions in the philosophy of religion

The God Question Andrew Pessin, 2009-06-01 Join the greatest debate in the history of creation Does God exist Without doubt the greatest question to face humanity in its history the controversy rages on today with a recent spate of books on both sides of the divide However this debate is not a new phenomenon For centuries our greatest philosophers from Aristotle to Nietzsche have sought to clarify the idea of a Supreme Being and examine the unique conundrums that He raises Revealing the thoughts of history's biggest philosophers on the biggest question of all The God Question will help you make your own mind up Presenting pithy arguments from the faithful atheistic and downright heretical Pessin's light hearted prose will give you a captivating insight into a wide array of God related puzzles whether or not you are religiously inclined

*God, Time, and the Incarnation* Richard A. Holland, 2012-02-20 The dominant view among Christian theologians and philosophers is that God is timeless that he exists outside of time in an atemporal eternity In *God Time and the Incarnation* Richard Holland offers a critical evaluation of this traditional view in light of the most central

doctrine of Christianity the Incarnation of Christ Holland reviews the history of this controversy highlighting the various theological problems for which atemporal models have been offered as a solution He asserts the central importance of the Incarnation for Christian theology and evaluates several atemporal models in light of this doctrine Finally he suggests that the traditional atemporal view is not compatible with a robust and orthodox view of the Incarnation This book rejects the traditional atemporal view of God s relationship to time and argues based on the Incarnation that God experiences temporal sequence in his existence

*The Philosophy of Religion* Edward R. Wierenga, 2016-07-29 Philosophy of Religion is an engaging introduction to the main tenets of this fascinating subject written clearly and with detailed enough explanation to be accessible to those new to the field whilst providing original and challenging ideas to more experienced students The ideal introduction to this fascinating subject providing a clear and engaging entry point to the field The book lucidly introduces the main issues in philosophy of religion and develops a rigorous yet accessible approach to evaluating positions on these issues No previous exposure to philosophy is assumed and more technical topics are introduced and explained before they are employed Original ideas and new approaches to concepts within the book ensure that it is also relevant to those already familiar with the subject

Ancient Philosophy of Religion Graham Oppy, N. N. **The Wonderful Decree** Travis James Campbell, 2020-01-03 Unconditionally loving Sovereign over all How can God be sovereign over all things and loving towards all people while His creatures possess real freedom and responsibility for their choices Theologians have wrestled with this question for centuries But have our attempted solutions made the problem worse In Wonderful Decree Travis James Campbell suggests we cannot solve the problem by sacrificing either divine sovereignty and goodness on one hand or human responsibility on the other While considering Arminian and Molinist alternatives he concludes that the traditional Augustinian and Calvinist approach best allows these truths to remain in a healthy and biblically faithful tension Inspired by the example of Spurgeon who preferred biblical mystery over human solutions Campbell encourages readers to trust even delight in the harmony of God s love for all and sovereignty over all

Pentecostalism, Postmodernism, and Reformed Epistemology Yoon Shin, 2021-12-27 In Pentecostalism Postmodernism and Reformed Epistemology Yoon Shin critically builds on James K A Smith s postmodern Pentecostal epistemology with the aid of

Reformed epistemology It takes the reader through an interdisciplinary journey that exposit and illumines the relationship among Pentecostal spirituality continental and analytic philosophy postliberalism moral psychology and philosophy of emotion This work clarifies misunderstandings of Smith in Smith and between continental and analytic epistemology constructively and coherently synthesizing the sources through interdisciplinary analysis and thereby demonstrating the value of mashup philosophy The resulting epistemology strengthens the mostly descriptive epistemology of Smith with the warrant criteria of Alvin Plantinga

*The Analects* Erin M. Cline, 2022 The Analects Lunyu is the earliest and most influential record of the teachings of Kongzi 551-479 B.C.E. known to most Westerners as Confucius If we measure influence according to the number of people who have lived their lives according to the teachings of a particular text there is a good argument to be made that the Analects has been the most influential text in the world This book argues that we have good reasons to study the Analects as a sacred text and that doing so sheds light not only on the text and the Confucian tradition but on what the sacred is more broadly It begins by examining what it means for a text to be regarded as sacred in relation to the unique history of this remarkably influential book and goes on to offer a close study of the Analects including its structure its composition and compilation and the purpose it has served in the Confucian tradition as the earliest and most authoritative record of Kongzi's teachings and conduct The book further considers the history of the Analects as the most authoritative collection of Confucian teachings which virtually all major Confucians as well as Chinese thinkers throughout history from the Mohist Daoist and Buddhist traditions responded This book explores the text situating its teachings in relation to the religious practices of its time including Zhou rituals and customs known as li and the veneration of ancestor and nature spirits and discusses the Analects use and reception both in the periods following its composition and compilation and throughout China's imperial history up through the modern era including the recent revival of activity in Confucian temples

**Paul on the Human Vocation** Simon Dürr, 2021-11-08 Paul's use of in Rom 12:1 has long fascinated and puzzled interpreters This study proposes a new explanation of Paul's reason language in Rom 12:1 based on a detailed investigation of ancient philosophical texts on the role of human beings in the cosmos in which reason language and the idea of a vocation of human beings are closely connected It argues that Paul here appeals to the idea of a human vocation in order to claim that Christ followers are able to fulfil their human vocation by living in such a way that their lives produce signs of the new creation inaugurated in Christ This case is made by establishing the central role of reason in ancient

discourse on what it means to be human more broadly and in particular in Epictetus who provides the clearest parallel for Romans These contextualisations allow for a fresh reading of Paul's argument in Romans where the relevance of these traditions is shown not least for how Rom 12:1-2 frames Rom 12:15 The study thus contributes to the recent scholarly trend of exploring Paul in ancient philosophical contexts and advances the discussion on the integration of Paul's theology and ethics within an ancient cultural encyclopedia

Philosophy of Religion Beverley Clack, Brian R. Clack, 2008-06-03 The first publication of Beverley Clack and Brian R. Clack's exciting and innovative introduction to the philosophy of religion has been of enormous value to students as well as providing a bold and refreshing alternative to the standard analytic approaches to the subject This second edition retains the accessibility which made it popular for both teachers and students while furthering its distinctive argument that emphasises the human dimension of religion The text has been fully revised and updated The traditional emphasis on the arguments for the existence of God is reflected in a newly extended and reworked investigation into natural theology Recent developments in the subject are also reflected in updated chapters and in a move that highlights the originality of the authors' approach they offer a critical engagement with current world events An entirely new concluding chapter interrogates the connection between religion and terror and demonstrates how philosophy of religion might be conducted under the terrible shadow of 9/11 This new edition of *The Philosophy of Religion* will continue to be essential reading for all students and practitioners of the subject

Concepts: Contemporary and Historical Perspectives Gerhard Preyer, 2015-09-09 Concept in a historic and systematic perspective In his paper 'What Happened to the Sense of a Concept Word' Carlo Penco deals with the boundary between semantics and pragmatics and discusses some misunderstandings in the shift from the sense-reference distinction in Frege to the intension-extension distinction in semantics Building on Fodor, Margolis and Laurence, Jacob Beck defends in 'Sense, Mentalese and Ontology' the latter Fregean view on concepts by arguing that the mind-independence of Fregean senses renders them ontologically suspect in a way that mentalese symbols are not Maria C. Amoretti explores the model of Davidson's triangulation and its specific role in concept acquisition In 'A Critique of David Chalmers and Frank Jackson's Account of Concepts' Ingo Brigandt suggests a more pragmatic approach to natural-kind term meaning arguing that the epistemic goal pursued by a term's use is an additional semantic property Agustin Vicente Fernando Martinez Manrique discusses whether this variability in the languages generates a corresponding variability in the conceptual structure of the speakers of those languages in 'The Influence of Language on Conceptualization: Three Views' The connection between Views of Concepts and of Philosophy of Mind From Representationalism to Contextualism is explored by Sofia Miguens in respect of Edmund Husserl to Jocelyn Benoist Richard Manning argues some 'Changes in View: Concepts in Experience' with the main thesis that the content of perceptual experience must be conceived as concept-involving In 'Concepts and Fat Plants' Marcello Frixione suggests that typicality effects are more plausibly the consequence of some ecological constraints acting on the mind What does cognitive

neuroscience contribute to our philosophical understanding of concepts That is the main question for Joseph B McCaffrey in *Concepts in the Brain: Neuroscience, Embodiment and Categorization* The volume is completed by articles on the historical perspective on concept starting with *Conceptual Distinctions and the Concept of Substance in Descartes* by Alan Nelson The *Concept of Body in Hume's Treatise* is examined by Miren Boehm Lewis Powell argues the *Conceiving without Concepts* Reid vs The Way of Ideas And Thomas Vinci asks *Why the Concept of Spaces is not a Concept for Kant* while Sonja Schierbaum reconstructs Ockham on Concepts of Beings Content and abstracts [www.protosociology.de](http://www.protosociology.de) *New Essays on the History of Autonomy* Natalie Brender, Larry Krasnoff, Jerome B. Schneewind, 2004-06-07 Kantian autonomy is often thought to be independent of time and place but J B Schneewind in his landmark study *The Invention of Autonomy* has shown that there is much to be learned by setting Kant's moral philosophy in the context of the history of modern moral philosophy The distinguished authors in the collection continue Schneewind's project by relating Kant's work to the historical context of his predecessors and to the empirical context of human agency This will be a valuable resource for professionals and advanced students
