Harrison, Nonna Verna Harrison, 2010-06 This fresh approach to theological anthropology applies patristic wisdom to contemporary discussions of what it means to be human *God's Many-Splendored Image* Nonna Verna Harrison, 2010-06-01 What does it mean to be a human being made in the image of God This book makes the case that the divine image can be seen in not just one or two aspects of human identity but in all of them The author a specialist in early Christianity reveals the light that leading theologians of the early church shed on contemporary discussions of what it means to be human Each chapter explores a different facet of the divine image and likeness and maps out a path that can lead toward wholeness and holiness This fresh approach to theological anthropology brings Greek patristic theology to students in a readable fashion **The Holy Spirit and Christian Formation** Diane J.

Chandler, 2016-12-05 This volume discusses the importance of a multidimensional and multidisciplinary approach to Christian formation based upon godly love and the imago Dei Latin image of God Grounded biblically and theologically this interdisciplinary collection offers perspectives drawn from spirituality ethics philosophy psychology counselling ecclesiology physical health sciences and leadership studies Contributors address spiritual emotional and psychological formation while highlighting how suffering has the potential to draw one closer to God and others The book also details vocational development appropriate stewardship of the physical body and the ways in which the Eucharist sacramentally contributes to the process of formation The book concludes with a call for further exploration of additional research trajectories not the least of which is how Christian formation contributes to the missio Dei the mission of God [Theological Cartographies](#) Benjamin Valentin, 2015-03-14 Benjamin Valentin presents a substantive yet accessible introduction to the three central doctrines of Christian theology God humanity and Christ In an engaging style Valentin offers an overview of each of these doctrines delving into its tradition within the Christian community throughout history from the writing of Scripture forward He further explores what contemporary life tells us about this doctrine and how that compares to traditional understandings and then determines how we can reconstruct this doctrine in light of our new assessment of it Each chapter concludes with suggested readings for further study Throughout Valentin highlights the diversity of Christian thought bringing together past tradition and contemporary questions to arrive at a new understanding of what these important doctrines can mean for us today

**The Soul of Theological Anthropology** Joshua R. Farris, 2016-11-25 Recent research in the philosophy of religion anthropology and philosophy of mind has prompted the need for a more integrated comprehensive and systematic theology of human nature This project constructively develops a theological accounting of human persons by drawing from a Cartesian as a term of art model of anthropology which is motivated by a long tradition As was common among patristics medievals and Reformed Scholastics Farris draws from philosophical resources to articulate Christian doctrine as he approaches theological anthropology Exploring a substance dualism model the author highlights relevant theological texts and passages of Scripture

arguing that this model accounts for doctrinal essentials concerning theological anthropology While Farris is not explicitly interested in thorough critique of materialist ontology he notes some of the significant problems associated with it Rather the present project is an attempt to revitalize the resources found in Cartesianism by responding to some common worries associated with it

**An Introduction to Theological Anthropology** Joshua R. Farris,2020-04-21 In this thorough introduction to theological anthropology Joshua Farris offers an evangelical perspective on the topic Farris walks the reader through some of the most important issues in traditional approaches to anthropology such as sexuality posthumanism and the image of God He addresses fundamental questions like Who am I and Why do I exist He also considers the creaturely and divine nature of humans the body soul relationship and the beatific vision

*On Being Human* Jonathan Noble,2018-12-26 An intellectual multi disciplined journey exploring what it means to be human by one very ordinary man who was deeply interested in answering this question for himself and possibly at least beginning to answer this very ancient perplexing question for others Also an excellent resource book for those interested in beginning their own journey into the meaning of human being

*Why Mary Matters* Kristofer Carlson,2015-02-14 The Virgin Mary is more than just a bit player in the Christmas Pageant However if you are indisposed towards the Virgin Mary perhaps no amount of evidence will change your mind After all any number of people have used Sacred Scripture devise any number of different theological systems each internally coherent and with great explanatory power Despite this one of the unique things about human consciousness is our ability to step outside ourselves to see things from another perspective and to change our minds I ask you to examine the evidence and to examine the views of people you might normally discard out of hand If you make the effort even if you remain unconvinced you will nonetheless find the process spiritually rewarding

*Spiritual Formation in Local Faith Communities* Neil Pembroke,Ewan Kelly,Theo Pleizier,William S. Schmidt,Jan-Albert van den Berg,2022-03-31 Spiritual formation in our local churches is too often poorly done or it is virtually nonexistent We developed this innovative approach to spiritual formation in the congregation because it is desperately needed The prompt cards are used to spark deep reflection and shape potentially life transforming conversations with a pastor around spiritual practices spiritual character personal and social ethics and emotional well being The model was trialed in five countries We heard time and time again how the six week process fired a passion to go deeper with Christ Some reported praying regularly for the first time in decades Others found the Scriptures coming alive after years of going through the motions In this book the authors present a simple but powerful method and offer in depth theological reflection on related issues Some of the important areas covered are early church approaches to spiritual formation contemporary spiritual practices spiritual character the indissoluble link between spirituality and moral virtue the spirituality of the pastor and the positive psychology approach

**Sex Difference in Christian Theology** Megan K. DeFranza,2015-05-08 Charts a faithful theological middle course through complex sexual issues How different are men and women When does it matter to us or to God Are male and female the only two options In

Sex Difference in Christian Theology Megan DeFranza explores such questions in light of the Bible theology and science Many Christians entrenched in culture wars over sexual ethics are either ignorant of the existence of intersex persons or avoid the inherent challenge they bring to the assumption that everybody is born after the pattern of either Adam or Eve DeFranza argues from a conservative theological standpoint that all people are made in the image of God male female and intersex and that we must listen to and learn from the voices of the intersexed among us Exploring Ordinary Theology Leslie J. Francis, 2016-04-15 Ordinary theology characterizes the reflective God talk of the great majority of churchgoers and others who remain largely untouched by the assumptions concepts and arguments that academic theology takes for granted Jeff Astley coined the phrase in his innovative study Ordinary Theology Looking Listening and Learning in Theology arguing that speaking statistically ordinary theology is the theology of God's Church A number of scholars have responded to this and related conceptualizations exploring their theological implications Other researchers have adopted the perspective in examining a range of Church practices and contexts of Christian discipleship using the tools of empirical study Ordinary theology research has proved to be key in uncovering people's everyday lay theology or ordinary dogmatics Exploring Ordinary Theology presents fresh contributions from a wide range of authors who address the theological empirical and practical dimensions of this central feature of ordinary Christian existence and the life of the Church *Theosomnia* Andrew Bishop, 2018-02-21 Sleep occupies around one third of a person's life and is the subject of research across many disciplines In this groundbreaking new monograph Andrew Bishop explores sleep by creatively drawing on resources of the Christian tradition Sleep is a subject which demands theological attention because of the central place it occupies in contemporary reflection on what it is to be human Offering original research this book investigates sleep for the first time from a theological position looking at all key questions that a theological treatment of sleep raises including issues of identity and personhood sleep and mortality resurrection and renewal and healing **Selfies** Craig Detweiler, 2018-04-03 Selfies are ubiquitous They can be silly or serious casual or curated Within moments smart phone users can capture their image and post it across multiple social media platforms to a global audience But do we truly understand the power of image in our image saturated age How can we seek God and care for each other in digital spaces Craig Detweiler a nationally known writer and speaker and an avid social media user examines the selfie phenomenon placing selfies within the long history of self portraits in art literature and photography He shows how self portraits change our perspective of ourselves and each other in family dynamics education and discipleship Challenging us to push past unhealthy obsessions with beauty wealth and fame Detweiler helps us to develop a thoughtful biblical perspective on selfies and social media and to put ourselves in proper relation to God and each other He also explains the implications of social media for an emerging generation making this book a useful conversation starter in homes churches and classrooms Each chapter ends with discussion questions and a photo assignment for creating a selfie in response to the chapter **Steward of a Living Tradition** John

Sullivan,2025-05-05 This book explores what is entailed in serving as a steward of the living tradition of the Christian faith in the world of education It examines tradition as a resource leadership education as a spiritual endeavor curriculum and Christian learning and the task of connecting tradition to culture John Sullivan engages with historical perspectives and contemporary professional and cultural realities in addressing intellectual and spiritual dimensions of Christian education and the endeavor to make tradition both accessible and meaningful to those for whom it is unfamiliar Themes pervading the book include fostering a critical appreciation for and a creative appropriation of the living tradition of Christianity fluency and flexibility in sharing that tradition vocation and vulnerability and a striving for interconnectedness and integration in teaching and learning at school and university

**Creation and Christian Ethics** Dennis P. Hollinger,2023-11-07 Creation is a foundational pillar of the biblical storyline yet it plays little role in contemporary evangelical ethics Seeking to correct this oversight Dennis Hollinger employs the creation story and creation themes throughout Scripture as a foundation for Christian ethics After demonstrating why creation is theologically significant and important for Christian ethics Hollinger develops major creation paradigms that provide ethical guidance on a wide range of issues including money sex power racism creation care social institutions and artificial intelligence among many others Creation and Christian Ethics shows throughout that the triune God creates from love and in that creation are moral designs for humanity s journey in God s world Professors and students of Christian ethics will find this a valuable resource for the classroom while pastors and church leaders will benefit from personal and small group study

**Sacramental Identity** T. Ryan Dillon,2024-04-01 Who am I A theology of personal identity and an answer to that question should be integral to any theological anthropology For some the answer is found in what many have called expressive individualism an inward turn toward the self and who and what I feel is most authentic to that self Christians respond that we are no longer that person we are in Christ But do either of these answers truly respond to the realities of both storied and embodied persons living out a life over time and change or the demand for an answer of stability throughout that endless change Sacramental Identity seeks to answer these questions by grounding personal identity in Scripture history and a rich theology of the sacraments of the church In a time where many are skeptical of the church s care for the embodied and storied realities of human life the sacraments invite us into the story of Christ and the church to discover who we are

**A Heart of Flesh** Steven E. Knepper,2023-11-09 The Irish philosopher William Desmond is one of the most compelling and adventurous Christian thinkers of our time The essays gathered here undertake a journey through the Bible with Desmond that ranges across biblical theology philosophy of religion metaphysics ethics aesthetics political theory and literary studies Some of the essays examine the place of the Bible in Desmond s thought considering his readings of the creation the Abraham cycle and the Beatitudes Other essays bring Desmond s ideas to bear on broad questions that emerge from the Bible about philosophy and revelation exegesis theopoetics eschatology and tyranny Still others bring Desmond into conversation with influential philosophers who engage or conspicuously do not engage the

Bible such as Hegel Schopenhauer Kierkegaard Heidegger and Tillich Together these essays show the rich possibilities of approaching the Bible with Desmond All take their bearings from Desmond s metaxological approach which does not seek to claim the final word which attends to the text rather than simply imposing on it and which allows for an ongoing dialogue Contributors Ryan G Duns SJ Caitlin Smith Gilson Joseph K Gordon William Christian Hackett Steven E Knepper Renee Kohler Ryan Andrew Kuiper Brendan Thomas Sammon Terence Sweeney Ethan Vanderleek Erik van Versendaal Robert Wyllie

**All God's Creatures** Daniel P. Horan, 2020-07-07 The predominant stewardship model of creation is the result of an intentional effort to correct approaches that reinforce human sovereignty and the resulting environmental degradation However as All God s Creatures argues the stewardship model actually does not offer a correction but rather reinscribes many of the very same pitfalls After close analysis of the stewardship model this book identifies scriptural theological and philosophical sources to support the adoption of a community of creation paradigm Drawing on postcolonial theory this book proposes the concept of planetarity as a framework for conceiving the relationship between human and nonhuman creation and the Creator in a new way This theoretical framework is grounded by a retrieval of the medieval Franciscan theological and philosophical tradition The result is what can be called a postcolonial Franciscan theology of creation imagined in terms of planetarity providing a constructive and nonanthropocentric response to the need for a new conceptualization of the doctrine of creation

*Relationship Is the Transformative Space* Darryl Wooldridge, 2016-02-09 This book affirms relationship as the shared human elemental pursuit and proposes relationship as the transformative space Wonderfully the author asserts it is God s intention to fulfill this intrinsic human desire in the present in all of us and universally This desire is an often inarticulate innate desire and pursuit to enjoy and reflect the divine image in which every human being was created In this book this pursuit is referred to as proleptic spiritual transformation Pr ST That is this book demonstrates that what is too often relegated to eternity is available now Relationship is the Transformative Space considers God s heart in relationship and its implication toward human spirituality and how this intent has been interrupted and restored God is actively interested in the recovery of a fully expressed image in humanity

[A Practical Discipleship Model That Fosters Spiritual Maturity](#) Owar Ojha Ojulu, 2023-11-09 Jesus challenges us to live in him and continue living out the truth so that we claim our allegiance to Christ and live as disciples free from fear and from cultural customs that contradict the gospel message This project has found that the lack of discipleship training among the Anyuwaa churches has resulted in a lack of understanding of what this ministry entails teaching and making disciples In addition failure to embed elements of the Anyuwaa culture into the discipleship approach and the persistence of certain elements of Anyuwaa life that run counter to gospel beliefs has inflamed this crisis Therefore this book presents a call for the church to challenge the culture of syncretism and the fear of witchdoctors to shift its paradigm and begin interpreting the gospel message utilizing contextual elements but interpreting them through the lens of the gospel calling people to embrace gospel values within their own cultural context When we start

interpreting strong cultural beliefs and traditions through the truth of the gospel it is proof that we have come to the best discipleship approach as we speak the truth of the gospel in the life our church and the hearts of our believers
