**Medical Writing in Early Modern English** Irma Taavitsainen, Päivi Pahta, 2011-02-03 *Medical writing* tells us a great deal about how the language of science has developed in constructing and communicating knowledge in English. The book presents results from large-scale empirical research on the new materials and provides a more detailed and diversified picture of domain-specific developments than any previous book. Three introductory chapters provide the sociohistorical disciplinary and textual frame for nine empirical studies which address a range of key issues in a wide variety of medical genres from fresh angles.
